

# **Trail Systems in and around North Berwick**

## **Eastern Trail:**

The Eastern Trail is a 65 mile section of the East Coast Greenway, a transportation-recreation greenway connecting Kittery, in southernmost Maine to Casco Bay in South Portland! You can go on their website at [www.easterntail.org](http://www.easterntail.org) and download a trail guide, sign up for a newsletter, get a brochure and many other fun things.

## **Great Works Regional Land Trust: Bauneg Beg Mountain Conservation Area:**

Located in the northern tip of North Berwick, **Bauneg Beg Mountain** has three peaks, the highest of which is 866' higher than Mount Agamenticus. The peaks can be seen from the Atlantic Ocean and have been used by mariners navigating the Maine Coast. On a clear day, from the top, you can see both Mount Washington to the NW and the Atlantic Ocean to the SE. The mountain is the only one in southern Maine that does not have a radio tower. The trails wind through a deciduous forest, then up through a pine grove through a large boulder section known as Devil's Den and on to the view from the high peak. The hike up is about a half-hour walk and there is a choice of longer – *Ginny's Way* – or steeper – *Linny's Way* – routes to the top. Trail map on next page. Visit there website at [www.gwrlt.org](http://www.gwrlt.org) for other places to visit and a lot more information.

## **The Mount Agamenticus Conservation Region:**

Mount Agamenticus in nearby South Berwick, Maine.

Mount “Aggie” is known for its unique trail system and rich natural resources. State, local and non-profit landowners are working together to balance protection of these lands for wildlife habitat and water quality while providing opportunities for safe and sustainable recreation. For more information about the trail system and more visit their website at: [www.agamenticus.org](http://www.agamenticus.org)

## **Negutaquit Nature Center/Primary School Trails:**

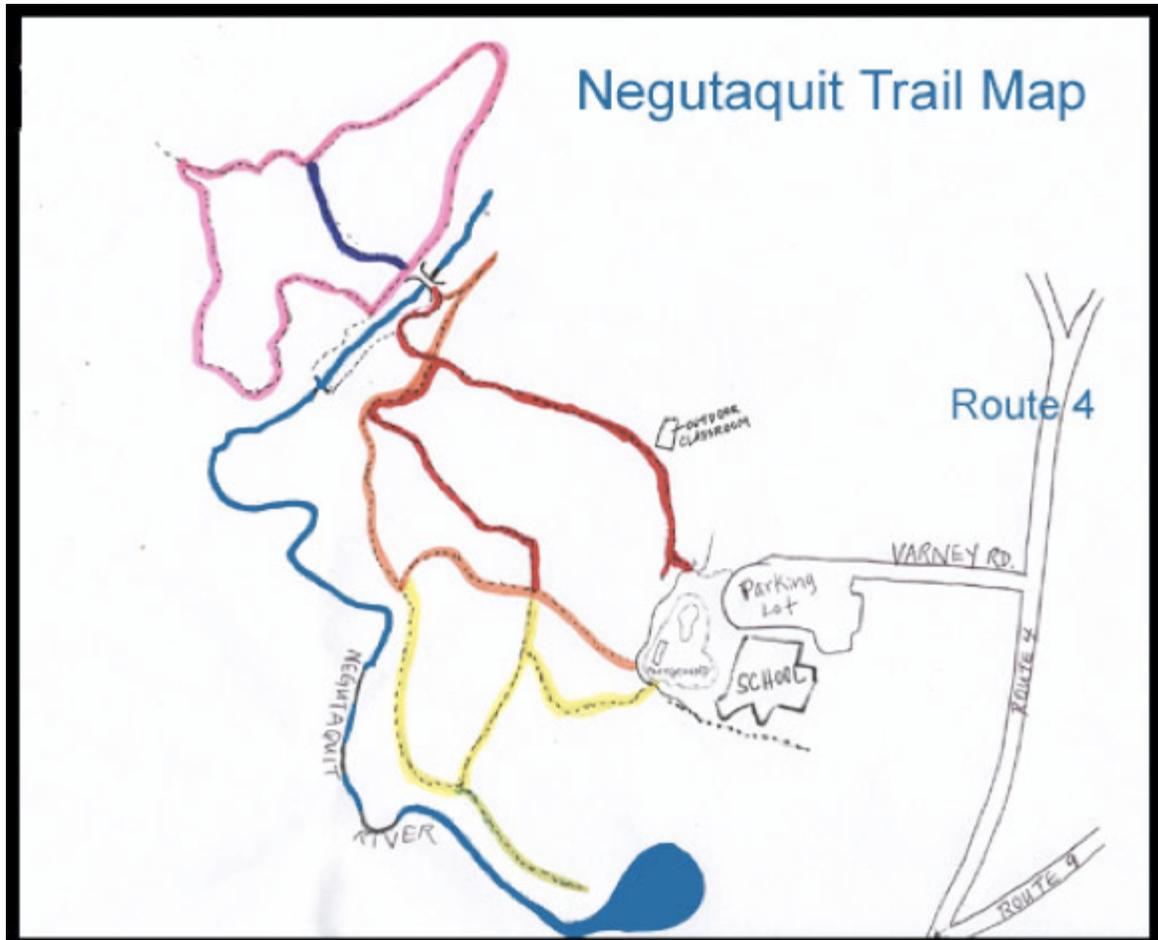

The Negutaquit Nature Center, located behind the Primary School's playground, is made up of 55 acres of land. Students and teachers are fortunate to be able to walk the trails and use the nature center to gain first hand knowledge about the plants and animals that thrive there.

It is open to the public year round.

The Negutaquit Nature Center has a wide variety of habitats: field, forest, and a stream.

## Trail Map

Nequataquit Nature Center has trails that have a wide variety of habitats: mowed and unmowed fields, forest, and a river. The two trail heads are located on the edges of the school's playground.

The **mission** of this nature center is to serve SAD #60 and the citizens of its three towns by preserving a natural area, accessible for day use for the following purposes:

- \* to foster appreciation and respect for the environment
- \* to create a hands-on educational facility
- \* to encourage active stewardship in protecting and maintaining the delicate balance of nature
- \* to provide a place for renewal and peace.
