

TOWN OF NORTH BERWICK, MAINE

RESCUE SQUAD AMBULANCE

FOR THE FISCAL YEAR BEGINNING JULY 1, 2017 AND ENDING JUNE 30, 2018

AND THE

2019 BUDGET MEETING WARRANT

On The Cover

NEW AMBULANCE

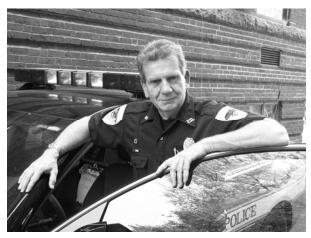

On the cover is a picture of the newly purchased Ambulance for the Rescue Squad.

Pursuant to the Town's Capital Improvement Plan, a replacement ambulance was to be purchased in 2017, however, in 2016, the Rescue Squad purchased a used second ambulance with funds of the Rescue Squad in an effort to prolong the purchase and to provide a backup ambulance for the Town. The purchase of the \$217,000.00 Ambulance was made possible with a grant from the Rescue Squad, Inc. in the amount of \$60,000.00 along with reserve funds.

DEDICATION

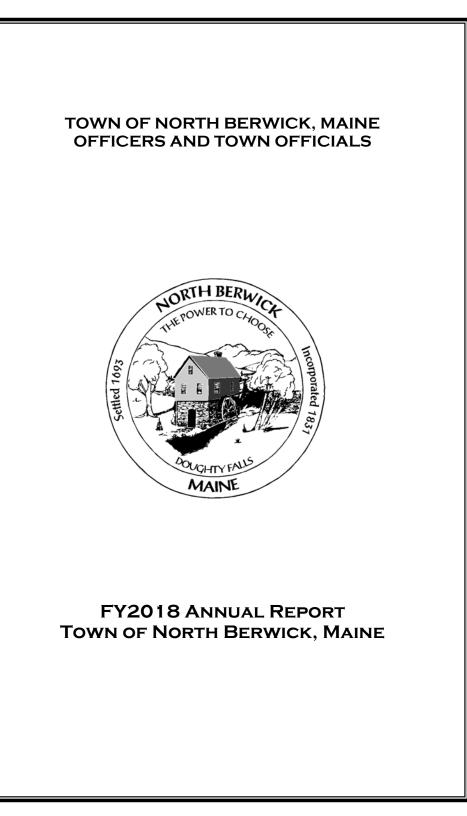

Martin Morrissey

It is the Town of North Berwick's honor to dedicate the Town Report to Martin Morrissey

Martin Morrissey was born and raised in the city of Boston. In 1961, he married his high school sweetheart Theresa Armstrong and they had three wonderful children, Michael, Kim and Lynn. He fulfilled his goal of becoming a flight instructor before being hired by General Electric's Aircraft Engine Division and later become an aircraft engine inspector.

In 1977, he and his family moved to a large duplex they purchased on Church Ave in North Berwick next to Brown's Garage. A year later, Chief Dan Sheejen hired Marty as a Reserve Police Officer. He continued to work at General Electric, commuting to Everett, Massachusetts while working weekends and holidays for the Police Department. In 1984, Marty and Theresa built a house on Bauneg Beg Hill Road along with their neighbor and friend Chief of Police Randy Jones. At the age of 47, Marty graduated from the Maine Criminal Justice Academy to become a full-time certified police officer. He continued to serve the Town of North Berwick for another 36 years.

In 2018, at the age of 75, Marty was recognized by the Maine Special Olympics for his 30 year commitment to participating in the annual Law Enforcement Torch Run. In June 2018, a crowd gathered to witness his last run and present him with a plaque in honor of this event. In his unofficial retirement, he spends time with family, enjoys hunting, fishing and is an active member in his church.

ELECTED OFFICIALS For the Fiscal Year Ending June 30, 2019

FY2018 ANNUAL REPORT TOWN OF NORTH BERWICK, MAINE

Report of the **BOARD OF SELECTMEN**

The Select Board has been working hard this year to strike the right balance between town services and taxation. In 2018 we did have to increase the mill rate from \$12.60 to \$12.90 per \$1,000 dollars in assessed value. We are pleased to share with you that we don't foresee having to increase taxation this year.

The financial state of our town continues to be healthy and if the state fulfils its revenue sharing and school funding mandates then the towns people could actually see a property tax decrease. The town's philosophy of controlled growth is paying dividends by attracting new families, while at the same time doing our part to keep the school district's budget in check. Over the last few years more and more of the tax burden has shifted from the State to local municipalities. North Berwick, under the strong leadership of Town Manager Dwayne Morin, has been able to stave off any significant tax increase and this year we'll be presenting a fiscally sound budget.

The Agriculture and Conservation Committee in conjunction with the Parks and Recreation Department have been hard at work. We have seen the completion of a walking track around the community center's athletic fields and have broken ground on a trail system that will allow the community to walk and hike safely through the woods from route 9 to Maple Street. The new trail system will be completed at no additional cost to the taxpayers of North Berwick, but will instead rely on grant funding and volunteers.

The Town continues to set aside money each year for the building of a new fire station. This year we did spend some of that money on the initial plans for the new building. The North Berwick Fire Department and Rescue Department continue working closely together on the initial planning phase of the new building which will likely be built and connected with the current rescue station on Lebanon Road.

The Town of North Berwick has been able to deliver a high level of services while maintaining a low tax rate. Our Parks and Recreation department, through a multitude of volunteers, continues to offer great recreational opportunities for the citizens of this town. The Highway department does a great job with clearing and maintaining our roads no matter what Mother Nature throws their way. Our First Responders deliver top rate community safety making our town one of the safest places to live in the State of Maine. The North Berwick Board of Selectmen would like to thank all the wonderful volunteers who are working to make this community strong. Whether volunteering at the library, food pantry, or the North Berwick Athletic Association your hours of dedication are an integral part to the success of our Town.

Respectufully Submitted; Genathan Hall, Chair, Board of Selectmen

Report of the **TOWN MANAGER**

To the Citizens of North Berwick:

I am pleased to present to you the reports of the various committees, departments and boards for fiscal year 2018 which covers the period from July 1, 2017 to June 30, 2018.

Here are a few other highlights from the past fiscal year:

<u>Highlights</u>

Tax Rate: The tax rate remained at \$12.60 from the previous year. The Town saw an increase in the municipal valuation of \$32,932,948.00. The Town portion of the tax rate increased by \$200,915.45, the SAD #60 portion increased by \$203,914.00, and County Taxes increased by \$10,495.00 over the previous year.

Financial Heath: I am pleased to continue to report that the Town continues to maintain a healthy fiscal approach by maintaining a fund balance equal to more than 90 days of expenditures as recommended by our auditors as well as healthy fund balances within the Town's trusts and dedicated funds. In addition, department heads continue to develop budgets that provide the essential services requested by residents in the most effective way and at the lowest possible cost. The audit report contained in this report provides a picture of the Town's fiscal health. The Town also produces a Capital Improvement Plan to provide a means for evaluating facility and infrastructure projects and the mechanism for reviewing operating budget projects. The five year Capital Improvement Program is reviewed and revised yearly with ten year projections included to aniticipate and plan for projects involving public facility improvements and major equipment purchases. By planning and maintaining the town's infrastructure, facilities and equipment, it balances the needs and the Town's financial ability on both a short and long term basis.

Road Work: The Town accomplished the following road projects:

Diamond Hill Road: The Town continued the three year road improvement project on Diamond Hill Road. This year the phase consisted of base paving the newly graveled section from Beech Ridge Road to Governor Goodwin Road. In addition, the Town reconstructed the short section of Diamond Hill Road from Governor Goodwin Road to the Berwick Townline. This reconstruction consisted of grinding the pavement, adding base gravel, ditching of the road, tree and stump removal and then installing the base pavement layer **<u>Buffum Road</u>**: The Town completed drainage improvements, tree trimming and then paved the entire Road.

<u>Church Street and Burma Road</u>: The Town reconstruct approximately 845 feet of Church Avenue. The Water District upgrading the water main in Church Avenue and the Public Works Crew worked in coordination with the Water District. The improvements included grinding the pavement, installation of the new water main by the Water District and the addition of gravel base and paving of the road along with paving Burma Road.

Transfer Station: In August 2017, the Town of North Berwick changed the way we recycle materials at the Transfer Station. Instead of sorting all of your recyclables, you are now able to place them unsorted into the recycling compactor at the Transfer Station. The switch to Single Stream Recycling was implemented to Make Recycling Easier as well as Save Money and the change has proven to be a success thus far.

In anticipation of moving to the single stream process, the town relocated our recycling compactor, added a chute similar to the trash compactor to assist in feeding the compactor with the recycled materials and installed safety improvements to allow easier compacting of the materials.

The Town has also been making improvements to the recycling building to accommodate the switch to single stream recycling as well as repairing the exterior walls and metal siding on the building.

I again would like to express my sincerely gratitude to all the Department Heads, employees, volunteer boards and committees who bring a high degree of enthusiasm, teamwork, and resolve to the Town's business. Their hard work and dedication is the backbone of our community and I never cease to marvel at their unceasing dedication and commitment to the needs of our community and the excellent work they perform on a daily basis.

I again want to thank the members of the Board of Selectmen for their leadership and support of the Town staff and myself. I would also like to thank my wife, Shannon, two daughters, Ali and Paige and son Ethan whose unending love and support I truly cherish. I am truly blessed.

Respectfully submitted,

Dwayne G. Marin, Town Manager

Report of the RESCUE SQUAD

To The Citizens of North Berwick:

Thank you to the citizens of North Berwick for all your support, yet another year has come and gone, and North Berwick Rescue continues to grow and improve in order to provide the very best in Emergency Medical Services(EMS) to the residents and visitors of this great community. This year was another busy year for us with over 500 calls for service. We thank you for approving the purchase of our new ambulance at last years town meeting, we are happy to report that it is serving our department and community well.

As we always report, we have an extremely dedicated and talented staff of EMS professionals that provide the very best emergency medical care for our small town and we are all honored to service this great community. While all the other area towns are continuing to add paid staff and offering more money per hour for their services, we need to continue to support our employees to retain them and recruit new ones. In order to accomplish this goal, our budget again reflects a small increase as we continue to invest in our people. Investing in our people over the years has that we are fortunate to keep people from leaving for a few more dollars and it is much appreciated that the Town of North Berwick has been very supportive in helping us strive towards pay parity and investing in the people that make up this department in order to keep EMS care at high standard.

Thank you for the support that all have given and we look forward to another great year! Be Safe

Michael Barker, Rescue Chief and Nick Pelletier, Asst. Chief

Report of the **POLICE DEPARTMENT**

To The Citizens of North Berwick:

Over the past year the police department has had some changes. Officer Rickey Varney retired after nearly 40 years of service with the North Berwick Police Department. Officer Varney during his career held every position from Patrolman to Lieutenant and Interim Chief. To replace Officer Varney we hired Officer Brian Donahue. Officer Donahue previously worked in the Maine State Prison system for 13 years where he was a K-9 handler and held the rank of Corporal.

We also had to say goodbye to our K-9 friend Hoki who was retired two years ago. Hoki's health progressively deteriorated over the past year to the point he could no longer go on. We will remember Hoki as North Berwick's first police canine and the hundreds of calls he assisted the police department and citizens with. Most of all we will remember Hoki's favorite activity visiting and playing with children whether at the schools or summer camps or just meeting them while on patrol.

The police department had a busy year answering over 7,200 calls for service. In addition to the calls officers performed 7,306 house and business checks ensuring they are secure when you are not there. Below is a summary of some of the calls handled by the police department over the past fiscal year. A complete list can be obtained at the police department.

On behalf of the men and women of the Police Department I would like to that you for your continued support. All of us working together makes North Berwick the wonderful town it is.

The following is a summary of the calls the North Berwick Police Department handled during fiscal year July 01, 2017 to June 30, 2018. A complete list can be obtained at the police department.

Criminal Trespass	26	Assist Rescue	373	Bomb Scare	1
Disorderly Disturbance	58	Domestic Dispute	44	Assist Citizen	229
Theft/Fraud/Forgery	61	Assaults	18	Found/Lost Proper	ty 40

Motor Vehicle Stops	2955	Emotional Disturbe	ed 34		

Respectfully submitted,

Stephen C. Peasley, Police Chief

Report of the **FIRE DEPARTMENT**

To the Citizens of North Berwick:

Once again I would like to thank the town's people of North Berwick for their continuing support of the North Berwick Fire Department. It is due to this support that, we are able to give and better our services to the town, by training and equipment purchases.

If you are interested in joining please feel free to come to the station and talk to me or any of the fire fighters that are here. If no one is there feel free to call and we can set up a time to meet.

The North Berwick Fire Department responded to the following number and types of calls for the fiscal year July 2017 - June 2018:

Electrical Fire	3	Fire/smoke alarms	39
Assist other NB agency	44	Structure Fires	3
Carbon Monoxide calls	3	Hazardous Materials	4
Chimney Fires	1	Misc./Public Assist	10
Wires Down	11	Investigations	14
Grass/Brush/Woods	4	Equipment Fire	1
Motor Vehicle Accidents	49	Tree Down	14
Vehicle Fire	4		
Mutual Aid	36	TOTAL CALLS	245

Respectfully submitted,

Brian Gosselin

Fire Chief

Report of the CODE ENFORCEMENT OFFICER

To the Citizens of North Berwick:

It is the goal of the Code Enforcement Office to assist property owners and their agents in reviewing, permitting and inspecting land use and construction activities and to insure a successful outcome.

Permits are required for various land use and construction activities. To be certain, call the Town Office for information about permits and permit fees. Permits do expire, for work not started within 1 year and not substantially completed within 2 years.

Growth Permits Issued:

Single Family 19

Building Permits Issued:			
Single Family Homes	21	Decks	14
Accessory Dwellings	3	Swim Pools	4
Garages/Barns/Sheds	37	Replacement Home	3
Remodels	3	Sign	6
Additions	4	Miscellaneous	8
Piers, Docks	0	Commercial Building	1
		Total	104
Plumbing Permits Issued:	68		
Electrical Permits issued:	71		
Total Value		\$6,508,92	7.00
Total Permit Revenue Impact Fees Received:		\$64,96	5.50
Recreational Impact Fees		\$19,66	6.66
Open Space Impact Fees		\$9,83	

Respectfully submitted,

Roger Frechette

Code Enforcement Officer

Report of the GENERAL ASSISTANCE ADMINISTRATOR

To the Citizens of North Berwick:

During the fiscal year 2018, General Assistance was granted to the citizens of North Berwick in the amount of \$2,304.48. The majority of this assistance was for rent. Other forms of assistance included household and personal supplies & funeral expenses. The State of Maine reimbursed the Town of North Berwick \$1,517.85 of the total expended. General Assistance is expended in the form of Purchase Orders to the vendors. No money is given directly to the recipients.

Applicants are sometimes denied assistance because they do not meet the guidelines set by the State of Maine. These guidelines include, but are not limited to income, age, use of income and work search requirements.

There are times when applicants are referred to other agencies such as Low Income Home Energy Assistance Program and York County Community Action Corp. for heating and electrical assistance and Job Service for employment. Applicants have also been referred to the Town Fuel Assistance program when applicable. Some applicants take advantage of the "aspire" program, run by the Department of Human Services, to gain new job skills and further their education. Clients are referred to the local food pantry and GED program when appropriate.

If a person expects to return for future assistance, in most cases, he or she must prove they have been job searching or provide proof from a doctor that they are unable to work. It is also necessary for return applicants to be able to show how all money received for the previous 30 days has been spent.

The Town of North Berwick is able to help, due to the generosity of all the taxpayers in town. You can be assured that the recipients are very thankful for the help in their time of need. The hope is that the day will come when they can reciprocate and help others.

Respectfully submitted,

Marianne J. Benedict

General Assistance Administrator

Report of the ASSESSING AGENT

To the Citizens of North Berwick:

The assessor is responsible for delivering an assessment roll, timely and accurately. The assessment roll makes possible the foundation that funds our public schools, police, fire and rescue departments as well as other public services citizens depend on and have come to expect and enjoy.

The Town of North Berwick and South Berwick share an Assessing Agent who serves in North Berwick on Tuesday and Wednesday each week and in South Berwick on Monday, Thursday and Friday. The Assessing Agent spends 60% of the week in South Berwick and 40% of the week in North Berwick and the two communities share the cost of this position on a 3/5th and 2/5th basis.

In preparation for the fiscal year beginning July 1, 2017 there were 27 mapping changes as well as field inspections and property valuation reviews on more than 200 properties. Those adjustments recognized changes resulting from home additions or alterations, construction of decks, sheds, garages and new homes.

The Sales Analysis Return, which is the annual audit of tax assessments by the Maine Revenue Service, resulted in certification of an average assessed ratio of 100%.

Applications for any current use program such as Tree Growth or Open Space or exemption programs such as the Homestead, Veteran or Blind Exemption must be submitted on or before April 1st each year in order to be effective for the tax year.

Forms for these programs or exemptions are available at Town Hall or at http://www.maine.gov/revenue/forms/.

Respectfully submitted,

Craig Skelton

Assessing Agent

Report of the PARKS, LAND AND RECREATION

To the Citizens of North Berwick:

What another great year for the Parks & Recreation Department. The community center truly is busier than ever. We had a nice dedication ceremony for Madeline Blasidell with her family and friends in July 2018. We walked a lap around the trails in dedication to Madeline. We are certain she was walking and smiling with us as we did it. There is an upper walking loop and the Woods Loop. Both are approximately .48 miles each. The woods loop is a wonderful walk through nature. You might see some tiny little critters, cross over some small bridges and even walk across our 150' bog walk. It really is lovely and we hear the kids love it. Lots of parents are enjoying the newly installed benches around the play areas. Lastly, the rebound wall seems to be a hit as well. The new kiosk station with a map of the facilities and signage around the trails lets everyone see the center and what we offer. We added the outside water bubbler for all to enjoy while utilizing the facilities. Lastly, we would like to add a bit of landscaping around the property for some more beautification. While enjoying the area you may see children running around the fields for different sports teams or just enjoying all there is to do.. We hope there is now something for everyone to enjoy at the North Berwick Community Center Area. If you haven't checked it all out, come on by.

Summer Camp in North Berwick was a tremendous success with 80+ campers signing up. We tried some new activities and went on all the favorite field trips like Fun Town, Splash Town, Aquaboggan, Smitty's, Hilltop Fun Center, Fort Foster,, York's Wild Kingdom and Urban Air trampoline park. The Parks & Recreation department continues to do our annual events such as the Easter Egg Hunt, Earth Day, "A Day in the Park 5K Race", Mill Field Festival, Halloween Howler and the Tree Lighting. I also answered 170+ Santa letters that came in from the Tree Lighting, PTO Santa Breakfast and the NB Post Office. The Canal Street Playground seems to be being used on a daily basis by several children of all ages. We are so happy it is such a nice play space with different options in the downtown area.

We continue to support the following programs: N.B.A.A. Baseball & Softball, Noble Travel Soccer, NB Running Club, Kids Yoga and other enrichment programs along with our own programs such as: summer camp and our largest the fall soccer program. That program has an average of 140+ players on 15-18 teams each year and is enjoyed by kids ranging from pre-school to 6th grade. Thank you to ALL of the coaches and volunteers.

The Senior Citizens enjoyed their "Pot Luck Lunches" the second Monday of each month from September through June.. It is a lot of fun for all who attend. All ages are welcome so come join us! We are trying to plan some trips so if you have any ideas please contact us.

Thank you to all of the folks who volunteer or bake for the different events, without you all the programs and events would not be as successful as they are. I appreciate everyone's continued support of myself and the Parks and Recreation Department. I would like to end by saying a huge "Thank You" to the members of the Parks and Recreation Commission who give endless hours to help with the various events and programs throughout the year. For more general information and events visit the Parks and Recreation section on the town website at <u>www.townofnorthberwick.org</u> or "like" the NB Rec Facebook page. You can also pick up our annual NB Activities Booklet at the town hall or access that at the town website.

Respectfully submitted, Kristie L. Michaud, Parks & Recreation Director

Report of the PLANNING BOARD

To the Citizens of North Berwick:

This past year, the Planning Board has been quiet with commercial development but active with review of projects including major and minor subdivisions and conditional use permits.

The board started the year reviewing potential zoning changes and ended the year with review of additional zoning changes for the upcoming Town Meeting, specifically the issue of medical marijuana as a land use within our community.

The boards intention when time permits is to review the comprehensive plan and present pertinent ordinance changes based on the comprehensive plan and resident requests. The board looks forward to meeting with the Selectmen to provide a common path for the Town's future development.

We encourage all members of the public to attend the meetings and participate in the process.

I would like to recognize and thank the current members of the Board that volunteer many hours of the their time to assist the Town with this important service; Barry Chase, David Ballard John Morse, Matthew Qualls, Ann Whitten, and Annette Hume. I also want to thank the efforts of Susan Neihoff our stenographer.

Respectfully submitted,

Geoffrey Alena, Chairman Planning Board

Report of the Agricultural and Conservation Commission

To the Citizens of North Berwick:

During the past year, we have been working on a few issues realted to agriculture and conservation in our town.

We have been making progress on the trail in the designated Town Forest off Maple Street. The trail has been cleared - thank you Jason Smith - and the boggy parts of the trail have been improved with bog crossings by Wil Dobyns and his crew of scouts - thank you! Signs with maps and information should be going in this spring. If all goes as planned, the trail should be open for walking this summer! We are continuing to look for more places that could afford our citizens an opportunity to enjoy some recreation in the beautiful and diverse landscapes that exist in town.

As many of you remember, our town has a resolution in support of food sovereignty. Many towns in Maine have gone a step further and have ordinances that secure food sovereignty for their citizens. Now that our state has figured out how to write such ordinances while complying with federal regultions, towns have clear guidelines for how to implement food sovereignty. Thus we submit to you an ordinance that ensures food sovereignty for our citizens.

We have been continuing to work on the issue of pollinator health in town. Many of you reported that the seeds we gave you last spring at town meeting provided you with lovely flowers. This surely means that they also provided pollinators with a lovely source of food and habitat. To those of you who took time to plant and tend a bed of flowers, and especially to those of you who took time to report back to us about your results, thank you! We are continuing to consider ways to improve pollinator health in town. If you have any thoughts or insights, please come and voice your opinion at one of our meetings, which are held the 4th Tuesday of the month at Town Hall at 6:30pm.

Respectfully Submitted,

Sofie Larsen, Chair

Report of the TRANSFER STATION - RECYCLING CENTER

The following is a breakdown of the municipal solid waste disposed at the Pine Tree/Casella Transfer Waste Facility in Westbrook:

North Berwick Transfer Station	603.70 Tons
Total to Pine Tree/Casella:	603.70 Tons

The following table represents the recycling efforts by the Town of North Berwick for the period July 1, 2017 to June 30, 2018:

Demolition Debris	130.28 Tons	Shingles	9.79 Tons
Scrap metal	57.58 Tons	TV's & monitors	8.00 Tons
Returnables	187,781 Returns	Income Generated	\$40,286.09
Single Stream*	228.40 Tons	*Paper, cardboard, p	lastics, steel, tin,
Clothes	45.50 Tons	aluminum and glass	

In addition, in September, 2017, the Town held it's Annual Hazardous Waste Day inconjunction with the Berwick and South Berwick where residents were allowed to bring their Household Hazardous Waste to So. Berwick Regional Transportation Center, which was safely disposed by Clean Harbors Environmental.

In August 2018, the Town switched to single stream recycling. Instead of sorting all of the recyclables, citizens place them unsorted into the recycling compactor at the Transfer Station. The switch to Single Stream Recycling was implemented to Make Recycling Easier while decreasing costs at the Transfer Station. Below is a table representing the PAYT program:

<u>Revenues:</u>		<u>Expenditures:</u>	
Balance FY 17	\$205,365.92	Disposal(Pinetree)	\$46,184.24
Bags	\$106,945.00	Transportation (Oceanside)	\$25,810.30
Recycling Bins	\$1,510.00	Hazardous Waste Day	\$4,542.64
Misc.	\$2,965.61	Bag Purchase	\$10,658.24
Interest Income	<u>\$72.90</u>	Misc.	<u>\$6,191.95</u>
Subtotal	\$316,859.43	Subtotal	\$93,387.37

Balance profit/(loss) <u>\$223,472.06</u>

Respectfully submitted,

Richard Anderson, Supervisor

Report of the **D.A. HURD LIBRARY**

The D.A. Hurd Library provides information services to the residents of North Berwick, and to all of the students, parents, and faculty in MSAD #60. The Library is governed by twelve volunteer members of a Board of Trustees. The library's programs and services are supported with funds provided, in large part, by the town of North Berwick. Supplemental monies from grants, memorial donations, gifts, and fees provide additional financial support for special projects and programs.

The library director is responsible for the daily operation of the library. Five full-time and/or part-time employees, including the library's director, and a core group of dedicated volunteers work to provide library visitors with free access to a wide range of information in multiple formats. The library's collection of nearly 35,000 items includes a wide variety books in print and on compact disc for people of all ages, interests, and reading abilities; popular films, documentaries, and television shows on DVD; local historical & genealogical resources; local newspapers and over 50 current magazines.

In the past year the library hosted 361 public programs for audiences of all ages including, but not limited to, our weekly outreach to local senior housing centers, pre-school story hours, and our Wednesday knitting group. A monthly non-fiction book discussion continues to grow in popularity. A weekly hand-quilting group is quickly becoming a hive of activity. We continue to collaborate with the North Berwick Historical Society for special programs and a bi-weekly video/discussion group. We have also instituted a monthly book club at Noble High School in collaboration with the school's librarian.

A collaborative grant (with Berwick & South Berwick Public Libraries) from Kennebunk Savings Bank continues to allow us to offer discounted admission passes to 8 regional museums.

If you are unable to find what you are looking for in our library, your library card offers access to to 4.6 million unique titles and 8.9 million items from 100 university, college and public libraries across the state through interlibrary loan service. Last year, we sent 1,713 items to other libraries in response to requests from their customers. Our patrons requested 1126 items from other libraries.

We can issue you a library card for the Portland Public Library that will provide you with free access to additional online materials.

At 100Mbs, the library has one of the best internet connections in our community, offering public access computers and free WiFi for use with personal devices. During the past year, visitors sat down to take advantage of our public access computers or WiFi to connect with friends and family, search for employment opportunities and apply for jobs, complete online course work, and explore their own personal interests.

23

You can utilize our internet connection (if you don't have one at home) for free access to over 10,000 E-books and nearly 5,000 downloadable audiobooks through the cloudLibrary by bibliotecha. You also have access to the Digital Maine Library's (<u>https://library.digitalmaine.org</u>) online resources that include a collection of full text articles and abstracts from magazines, newspapers, journals and reference, and online learning tools. Check it out!

A generous gift has provided the resources for us to replace well-worn furniture, refinish our wood floors, and paint the ceiling in our "living room" as well as the exterior dormers. We are always looking for opportunities to improve our services and our space to better meet the needs of not only library cardholders, but the community at large.

The library is open Monday, Wednesday, and Friday 9:30-5:00; Tuesday and Thursday 1:00-7:00; and Saturday 9:30-1:00. Further information about library services and programs is available online at <u>http://www.da-hurd.lib.me.us</u> or Facebook, or via phone at 676-2215. We welcome your thoughts and suggestions. Stop by for a visit.

We graciously accept your donations of gently used books and DVDs to add to our collection or to put in our annual Book & Bake Sale.

Respectfully submitted,

Beth Sweet, Library Director

Report of the ZONING BOARD OF APPEALS

To the Citizens of North Berwick:

The Zoning Board of Appeals heard 2 appeals during during the period July 1, 2017 to June 30, 2018.

February 5, 2018	Bruce Hall	Map 9 Lot 16-7
	Approved	Mis-located Structure Variance

June 27, 2018Eric and Shannon ReganMap 9 Lot 43-1ApprovedSingle Family Dwelling Setback Variance

The Zoning Board of Appeals members for this time period were; Craig Linscott, Julie Fernee, Todd Hoffman, Rebecca Reed, Gregg Drew and Tim Kezar.

Respectfully submitted,

Louis Thibadeau, Jn., Chairman Zoning Board of Appeals

Report of the S.A.D. #60 SUPERINTENDENT

February 1, 2019

Dear Noble Citzens

The 2018-2019 school year is nearly at the 100 day mark. We have high points and challenges I wish to share with you.

We are very proud of the burgeoning development of the Multiple Pathways (MP) Program at NHS and the Mary Hurd Academy in North Berwick. Also, one of Assistant Superintendent Sue Austin's many hats is district homeless liaison. In that role, she has been working with community-wide support to place homeless NGS students. Many thanks to our wonderful families for opening up their homes to assist students in daunting life situations.

Concerning Proficiency-Based Education, we are seeing a continual increases in high school grade point averages and SAT scores! Noble High School is a leader in the shift from the archaic one size fits all schools that has American dominated education for the last century. Our students learning is based on progress toward specific standards instead of comparing one student to the person in the seat next to him/her.

At the elementary level, our K-3 students have shown consistently strong gains in literacy, thanks in large part to our work with Literacy Consultant Carrie Thurston and the ongoing professional development of our dedicated staff. Simultaneously, the 4-7 grades are working with district literacy coaches and are taking the deep dive into Lucy Calkins Writing training and embedding key strategies from a district text read, *Core Six*.

Elementary math work involves the pilot of Eureka Math, a highly-regarded program out of "Engage New York." We will continue to compare results to Everyday Math. Our state math scores have been inconsistent, so we continue to track that data to analyze what is working and what is not.

As our communities continue to grow, we will be adding portables this summer to each of the elementary schools. NBES and Hussey are in the planning phases for expanded facilities over the next two to three years. Lebanon Elementary is in the planning phases for a new school to replace that aging structure over the next four to five years. And Noble Middle School continues to experience significant renovations as it has over the past three years. Plans for additions and a replacement school will be brought to a district referendum and also must pass Maine DOE approval.

Please consider joining us for Board-level budget discussions. The meeting agendas are posted regularly on the district website. Thank you for your continued support as we strive to move from good to great

Sincerely,

Steve Connolly Superintendent of Schools

Annual Report to the Town of North Berwick

A Message from Representative Representative Tiffany Roberts-Lovell

Dear North Berwick Neighbors:

It is an honor to serve as your State Representative. Over the next two years, I will be working hard on your behalf to provide responsive constituent services, be your advocate in the State House and advance legislation that improves life in our district and in our state.

Over the coming months, we expect to take up more than 2,000 separate pieces of legislation covering a wide variety of topics. Top priorities include expanding health care coverage, bringing relief from the opioid crisis, expanding access to renewable energy, reducing student debt, fighting and dealing with the effects of climate change, repairing our roads and bridges, increasing protections for workers and consumers, getting prescription drug costs under control, protecting the independence of seniors and making sure we are caring for our neighbors with disabilities.

We will also be balancing the state budget for the next two years and will work to do so in a way that restores revenue sharing funds for all Maine towns and respects the mandate of the voters to properly fund public education.

This year I am serving on the Agriculture, Conservation and Forestry Committee, where we will tackle policy relating to food safety, the dairy industry, pesticide regulation, farmland preservation, state parks, historic sites, public lands, forest products and the Land for Maine's Future Program.

Whether we are dealing with the above issues or any other topics, I will continue to work with all of my colleagues, regardless of party affiliation, to make sure we're doing the best work we can for the people of our district and all the people of Maine.

Please contact me if I can be of any help or if you want to discuss or testify on any legislation. My email is Tiffany.Roberts-Lovell@legislature.maine.gov. My phone number is (207) 210-3287. I also send out periodic e-newsletters from time to time. Let me know if you would like to receive them.

Respectfully,

Tiffany D Killer Hall

Tiffany Roberts-Lovell State Representative

District 6 – North Berwick (part) and South Berwick (part)

Annual Report to the Town of North Berwick

A Message from Senator Robert Foley

Dear Friends and Neighbors:

Let me begin by thanking you for the opportunity you have given me to serve you in the Maine Legislature. It has been an honor working as a State Representative over the last four years and I am humbled by the opportunity to be your voice in the Maine Senate. I will continue to work tirelessly on your behalf, making sure that your interests are heard and well represented in Augusta.

This past legislative session proved to be the longest in recent memory. After dealing with a number of major policy matters, we finally adjourned September 13.

Perhaps the most significant action the Legislature took last year was the passage of tax conformity. Failing to conform would have been a nightmare for businesses as well as for low-income and elderly Mainers. Maine would have lost \$37 million in one-time repatriated revenue that the state would never have gotten back. Due to the Legislature's action and willingness to work together on the passage of tax conformity, Maine tax filers were unharmed by this policy change.

The 129th Legislature has many challenges of its own. The top priorities this session include finding a way to provide affordable and accessible healthcare to all Mainers, tackling the opioid crisis, education reform and funding, and lowering property taxes. I hope the Legislature can come together to tackle the difficult issues facing our state, and as always, I am ready to help.

You have my sincere thanks for allowing me to represent you in Augusta. Please feel free to contact me at (207) 287-1505 or <u>robert.foley@legislature.maine.gov</u> if you have comments, questions or if you would like assistance in navigating our state's bureaucracy.

Sincerely,

Robert A. Foley State Senator, District 34

SUSAN M. COLLINS MAINE 413 DIRKSEN SENATE OFFICE BUILDING WASHINGTON, DC 20510-1904 (202) 224-2593 (2021 224-2693 (FAX)

United States Senate WASHINGTON, DC 20510-1904

Dear Friends,

It is an honor to represent Maine in the United States Senate. I am grateful for the trust the people of our state have placed in me and welcome this opportunity to share some key accomplishments from this past year.

As Chairman of the Senate Aging Committee, I worked to help ensure the wellbeing of our seniors. The *Senior\$afe Act* I authored became law last year and is empowering banks, credit unions, and other financial institutions to better protect seniors from financial fraud.

Following extensive committee investigations of prescription drug pricing, additional legislation I crafted became law, ending the egregious practice of pharmacy "gag clauses" that prevented pharmacists from informing patients on how to pay the lowest possible price.

This year, I was also successful in securing an extra \$425 million for Alzheimer's research—the largest funding increase ever—bringing the total to \$2.34 billion. Additionally, the bipartisan *BOLD Act* I authored will create public health infrastructure to combat Alzheimer's by promoting education, early diagnosis, and improved care management.

More than 40 million Americans—including 178,000 Mainers—are caregivers for parents, spouses, children, and other loved ones with disabilities or illnesses, such as Alzheimer's. The *RAISE Family Caregivers Act* I authored was signed into law last year, giving caregivers more resources and training to better balance the full-time job of caregiving. Another law I wrote will help grandparents who are raising grandchildren, largely due to the opioid addiction crisis.

In addition to helping seniors, a major accomplishment over the past year is the increased federal investment in biomedical research that is leading to progress in the fight against numerous devastating diseases. Congress has boosted funding for the National Institutes of Health by \$7 billion in just the last three years, bringing total funding to more than \$39 billion.

One of my highest priorities as Chairman of the Transportation Appropriations Subcommittee is to improve our nation's crumbling infrastructure and ensure that Maine's needs are addressed. Since the Better Utilizing Investments to Leverage Development (BUILD) Transportation Grants program, formerly known as TIGER, was established in 2009, I have secured \$160 million for vital transportation projects throughout Maine.

Congress also delivered a Farm Bill last year, which includes many important provisions that will help the agriculture industry in Maine and across the country. Specifically, I secured provisions that will strengthen support for young farmers, improve local farm-to-market efforts, and increase funding for organic research.

Congress took decisive action to address the opioid addiction epidemic. In addition to appropriating \$8.5 billion in federal funding last year, Congress enacted the *SUPPORT for Patients and Communities Act*, a comprehensive package that embraces the multipronged approach I have long advocated for this epidemic: prevention, treatment, recovery, and enforcement to stop drug trafficking.

Maine plays a key role in ensuring a strong national defense. In 2018, Congress provided funding for five ships to be built at Bath Iron Works, which will help to keep our nation safe and provide our skilled shipbuilders a steady job. I also secured more than \$162 million for infrastructure projects at Portsmouth Naval Shipyard to support their important work to overhaul Navy submarines.

A Maine value that always guides me is our unsurpassed work ethic. In December 2018, I cast my 6,834th consecutive vote, continuing my record of never missing a roll-call vote since my Senate service began in 1997.

I appreciate the opportunity to serve Maine in the United States Senate. If ever I can be of assistance to you, please contact one of my state offices or visit my website at www.collins.senate.gov. May 2019 be a good year for you, your family, your community, and our state.

Sincerely,

Junan M Collins

Susan M. Collins United States Senator

United States Senate

133 Hart Senate Office Building Washington, DC 20510 (202)-224-5344 WWW.KINGSENATE.GOV

Dear Friends,

Representing Maine in the United States Senate is an honor.

I continue my work on the Senate Armed Services Committee, each year authorizing the funding required to build our military capabilities and ensuring that our service members are trained and equipped to defend our nation. I was pleased to be part of a bipartisan effort to enact a new law to simplify the appeals review process to reduce the backlog our veterans are facing, as well as a new law that provides critical funding to the VA Choice Program, allowing veterans in rural Maine to access services closer to home.

While my committee work is important, working to combat the opioid epidemic is one of my top priorities. Although Congress has made some important strides, much remains to be done to provide additional funding for prevention, treatment and enforcement. I am working with colleagues on both sides of the aisle to pressure the Drug Enforcement Administration to reduce the amount of opioids produced and to thwart the flow of fentanyl and other deadly drugs into our country.

I am very optimistic about the integrated, multiagency effort I led with Senator Collins to foster innovation and commercialization in Maine's forest economy. Through the Economic Development Assessment Team (EDAT) we are already experiencing increased federal investments that will strengthen our existing forest products industry and help support job creation in rural communities. Initiatives like Cross Laminated Timber, Combined Heat and Power, nanocellulose, 3D printing with biobased materials and other biobased products will mean that Maine's wood-basket will continue to be a major jobs and economic contributor for our future.

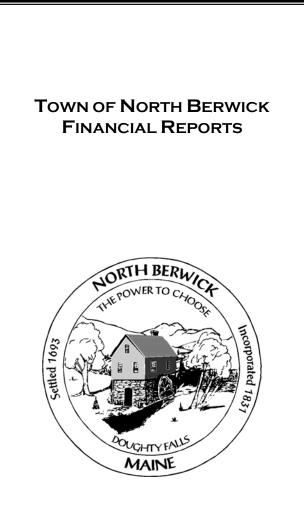

Finally, the coming year will continue the work of the Senate Select Committee on Intelligence in the ongoing investigation of Russian interference in the 2016 election. Our Committee has held seven public hearings and numerous classified sessions, reviewed tens of thousands of pages of documents and conducted hundreds of interviews. I remain focused on the security of our elections and committed to developing strategies to prevent interference by foreign governments in our democracy.

May 2018 be a good year for you, your family, your community and our great State.

Best,

Ungus A. Ting ..

Angus S. King, Jr. United States Senator

* The majority of the Police Department overtime costs were funded through grants and private service jobs.

FY 2018 Annual Report Town of North Berwick, Maine

ASSESSORS NOTICE TO TAXPAYERS NORTH BERWICK, MAINE

The Board of Assessors is required by state law (36 MRSA §706 to give notice to all persons liable to taxation in North Berwick to furnish the Assessors "true and perfect lists: of all estates, both real and personal, they possess as of April 1. Copies of the taxpayer's declaration form are available through the Office of the Selectmen.

If any person, after such notice, does not furnish said list, the taxpayer is barred of his right to make application to the Board of Assessors or County Commissioners for an abatement of his taxes. Exceptions are allowed if the applicant can supply a list with his abatement request and satisfy the Assessors that he was unable to furnish the list at the time appointed.

Any male or female veteran, blind person, or widow or minor child of any veteran who desires to secure a tax exemption under chapter 399 of the 1955 laws of Maine, shall on or before the first day of April give written notice of the Assessors of the Town of North Berwick and provide proof of entitlement.

Any person wishing more information on the various tax exemptions are encouraged to contact the Office of the Selectmen.

Respectfully submitted,

Jonathan Hall,Chair Wendy Cowan Michael Johnson, Sr. Charles Galemmo Michael Johnson, Jr.

Board of Assessors

ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Proven Expertise and Integrity INDEPENDENT AUDITORS' REPORT

Board of Selectmen Town of North Berwick North Berwick, Maine

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Town of North Berwick, Maine, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Town of North Berwick, Maine's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Town of North Berwick, Maine as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and pension and OPEB information on pages 4 through 11 and 63 through 69 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of North Berwick, Maine's basic financial statements. The Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual - General Fund Revenues, Schedule of Departmental Operations - General Fund, combining and individual nonmajor fund financial statements and capital asset schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual -General Fund Revenues, Schedule of Departmental Operations - General Fund, combining and individual nonmajor fund financial statements and capital asset schedules are the responsibility of management and were derived from and related directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual -General Fund Revenues, Schedule of Departmental Operations - General Fund, combining and individual nonmajor fund financial statements and capital asset schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 17, 2019, on our consideration of the Town of North Berwick's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of North Berwick's internal control over financial reporting and compliance.

RHR Smith & Company

Buxton, Maine January 17, 2019

REQUIRED SUPPLEMENTARY INFORMATION MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2018

(UNAUDITED)

The following management's discussion and analysis of Town of North Berwick, Maine's financial performance provides an overview of the Town's financial activities for the fiscal year ended June 30, 2018. Please read it in conjunction with the Town's financial statements.

Financial Statement Overview

The Town of North Berwick's basic financial statements include the following components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also includes required supplementary information which consists of the general fund budgetary comparison schedule and pension information, and other supplementary information which includes combining and other schedules.

Basic Financial Statements

The basic financial statements include financial information in two differing views: the government-wide financial statements and the fund financial statements. These basic financial statements also include the notes to financial statements that explain in more detail certain information in the financial statements and also provide the user with the accounting policies used in the preparation of the financial statements.

Government-Wide Financial Statements

The government-wide financial statements provide a broad view of the Town's operations in a manner that is similar to private businesses. These statements provide both short-term as well as long-term information in regard to the Town's financial position. These financial statements are prepared using the accrual basis of accounting. This measurement focus takes into account all revenues and expenses associated with the fiscal year regardless of when cash is received or paid. The government-wide financial statements include the following two statements:

The Statement of Net Position - this statement presents *all* of the government's assets, deferred outflows of resources, liabilities and deferred inflows of resources with the difference being reported as net position.

The Statement of Activities - this statement presents information that shows how the government's net position changed during the period. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows.

Both of the above mentioned financial statements have separate columns for the two different types of town activities. The types of activities presented for the Town of North Berwick are:

- Governmental activities The activities in this section are mostly supported by taxes and intergovernmental revenues (federal and state grants). Most of the Town's basic services are reported in governmental activities, which include general government, public safety, health and welfare, recreation and culture, education, public works, library and unclassified.
- *Business-type activities* These activities are normally intended to recover all or a significant portion of their costs through user fees and/or charges to external users for goods and/or services. These activities for the Town of North Berwick include a Pay-Per-Throw Trash Program.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of North Berwick, like other local governments uses fund accounting to ensure and demonstrate compliance with financial related legal requirements. All of the funds of the Town of North Berwick can be divided into two categories: governmental funds and proprietary funds.

Governmental funds: Most of the basic services provided by the Town are financed through governmental funds. Governmental funds are used to account for essentially the same functions reported in governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental fund financial statements focus on near-term inflows and outflows of spendable resources. They also focus on the balance of spendable resources available at the end of the fiscal year. Such information will be useful in evaluating the government's near-term financing requirements. This approach is known as the current financial resources measurement focus and the modified accrual basis of accounting. Under this approach, revenues are recorded when cash is received or when susceptible to accrual. Expenditures are recorded when liabilities are incurred and due. These statements provide a detailed short-term view of the Town's finances to assist in determining whether there will be adequate financial resources available to meet the current needs of the Town.

Because the focus of governmental funds is narrower than that of government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. These reconciliations are presented on the page immediately following each governmental fund financial statement. The Town of North Berwick presents only two columns in the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances. The Town's major governmental fund is the general fund. All other funds are shown as nonmajor and are combined in the "Other Governmental Funds" column on these statements.

The general fund is the only fund for which the Town legally adopted a budget. The Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual - General Fund provides a comparison of the original and final budget and the actual expenditures for the current year.

Proprietary Funds: The Town of North Berwick maintains a proprietary fund, the Pay-Per-Throw Trash Program. These funds are used to show activities that operate more like those of commercial enterprises. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. Like the government-wide financial statements, proprietary fund financial statements use the accrual basis of accounting. No reconciliation is needed between the government-wide financial statements for business-type activities and the proprietary fund financial statements.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the Government-Wide and the Fund Financial Statements. The Notes to Financial Statements can be found following the Statement of Cash Flows - Proprietary Fund.

Required Supplementary Information

The basic financial statements are followed by a section of required supplementary information, which includes a Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual - General Fund, a Schedule of Proportionate Share of the Net Pension Liability, a Schedule of Contributions - Pensions, a Schedule of Changes in Net OPEB Liability and Related Ratios, a Schedule of Contributions - OPEB and Notes to Required Supplementary Information.

Other Supplementary Information

Other supplementary information follows the required supplementary information. These combining and other schedules provide information in regard to nonmajor funds, capital asset activity and other detailed budgetary information for the general fund.

Government-Wide Financial Analysis

Our analysis below focuses on the net position, and changes in net position of the Town's governmental and business-type activities. The Town's total net position for governmental activities increased by \$210,059 from \$10,994,327 to \$11,204,386. The Town's total net position for business-type activities increased by \$18,107 from \$205,692 to \$223,799.

Unrestricted net position - the part of net position that can be used to finance dayto-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements - increased for governmental activities to a balance of \$3,547,530 at the end of this year. Unrestricted net position for business-type activities increased to a balance of \$223,799.

Net Position - June 30	\$	11,204,386	\$	10,994,327	\$	223,799	\$	205,692

Revenues and Expenses

Revenues for the Town's governmental activities increased by 3.88%, while total expenses increased by 4.72%. Revenues increase primarily due to grants and contributions restricted to specific programs. Expenses increased primarily due to education.

Revenues for the Town's business-type activities decreased by 11.31%, while total expenses increased by 20.30%.

Financial Analysis of the Town's Fund Statements

Governmental funds: The financial reporting focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information may be useful in assessing the Town's financial requirements. In particular, unassigned fund balance may serve as a useful measure of a government's financial position at the end of the year, and the net resources available for spending.

Table 3 Town of North Berwick, Maine Fund Balances - Governmental Funds June 30,

	2018	2017
Major Fund:		
General Fund:		
Assigned	\$ 586,352	\$ 563,950
Unassigned	 2,881,792	 2,764,466
Total General Fund	\$ 3,468,144	\$ 3,328,416
Nonmajor Funds: Capital Projects Funds: Committed Assigned Unassigned Permanent Funds:	\$ 321,645 314 -	\$ 244,035 311 (2,123)
Restricted	 271,560	 273,350
Total Nonmajor Funds	\$ 593,519	\$ 515,573

The general fund total fund balance increased by \$139,728 from the prior fiscal year primarily due to revenues exceeding expenditures. The nonmajor funds total fund balance increased by \$77,946 from the prior fiscal year primarily due to activity in the capital projects funds.

Proprietary funds: The Town's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Budgetary Highlights

Differences between the original and final budget for the general fund include the use of unassigned fund balance. Refer to Schedules A and B for additional information on budget differences.

The general fund actual revenues were over budget by \$256,886. This was a result of all revenues being receipted over budgeted amounts with the exception of excise taxes, intergovernmental and transfers from other funds.

The general fund actual expenditures were under budget by \$471,342. All expenditure accounts were within or under budgeted amounts with the exception of transfers to other funds.

Capital Asset and Debt Administration

Capital Assets

As of June 30, 2018, the net book value of capital assets recorded by the Town decreased by \$185,454 from the prior year. This decrease is the result of capital additions of \$412,742, less net disposals of \$3,502 and less current year depreciation expense of \$594,694. For additional details refer to Note 4 of Notes to Financial Statements.

Table 4 Town of North Berwick, Maine Capital Assets (Net of Depreciation) June 30,

	2018			2017
Land and improvements	\$	1,367,107	\$	1,374,530
Buildings and improvements		2,486,410		2,543,066
Machinery and equipment		338,270		356,963
Vehicles		831,781		926,682
Art works and historical treasures		10,000		10,000
Infrastructure		4,800,224		4,808,005
Total	\$	9,833,792	\$	10,019,246

Debt

At June 30, 2018, the Town had \$2.06 million in bonds outstanding versus \$2.26 million last year. Other obligations include a capital lease payable, accrued compensated absences, net pension liability and net OPEB liability. For additional details on the Town's outstanding debt, refer to Note 5 of Notes to Financial Statements.

Economic Factors and Next Year's Budgets and Rates

The Town's unassigned fund balance remains at a level sufficient to sustain government operations for a period of approximately three months while also maintaining significant reserves for future operations, capital and program needs.

Requests for Information

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the Town's finances and to show the Town's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Town Manager at P.O. Box 422, North Berwick, Maine 03906.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The Town of North Berwick was incorporated under the laws of the State of Maine. The Town operates under a selectmen-manager form of government and provides the following services: general government, public safety, health and welfare, recreation and culture, education, public works, library and unclassified.

The Town's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations).

The Town's combined financial statements include all accounts and all operations of the Town. We have determined that the Town has no component units as described in GASB Statement No. 14 and amended by GASB Statements No. 39 and No. 61.

Implementation of New Accounting Standards

During the year ended June 30, 2018, the following statements of financial accounting standards issued by the Governmental Accounting Standards Board became effective:

Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other than Pensions." The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency. Management has determined the impact of this Statement is not material to the financial statements.

Statement No. 81, "*Irrevocable Split-Interest Agreements*". The objective of this Statement is to improve accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. Split-interest agreements are a type of giving agreement used by donors to provide resources to two or more beneficiaries, including governments. Split-interest agreements can be created through trusts or other legally enforceable agreements with characteristics that are equivalent to split-interest

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

agreements in which a donor transfers resources to an intermediary to hold and administer for the benefit of a government and at least one other beneficiary. Examples of these types of agreements include charitable lead trusts, charitable remainder trusts, and life-interests in real estate. As such, this Statement requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement. Management has determined the impact of this Statement is not material to the financial statements.

Statement No. 85, "Omnibus 2017." The objective of this Statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]). Management has determined the impact of this Statement is not material to the financial statements.

Statement No. 86, "Certain Debt Extinguishment Issues." The primary objective of this Statement is to improve consistency in accounting and financial reporting for insubstance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources - resources other than the proceeds of refunding debt - are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. Management has determined the impact of this Statement is not material to the financial statements.

Government-Wide and Fund Financial Statements

The Town's basic financial statements include both government-wide (reporting the Town as a whole) and fund financial statements (reporting the Town's major funds).

Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. The Town's Pay-Per-Throw Trash Program is categorized as a business-type activity. All other activities of the Town are categorized as governmental.

In the government-wide Statement of Net Position, both the governmental and business-type activities columns are (a) presented on a consolidated basis by column, and (b) are reported on a full accrual, economic resources basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Town's net position are reported in three parts - net investment in capital assets; restricted net position; and unrestricted net position. The Town first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the Town's functions and business-type activities (general government, public safety, etc.) excluding fiduciary activities. The functions are also supported by general government revenues (property taxes, certain intergovernmental revenues, miscellaneous revenues, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function or a business-type activity. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants. For the most part, the interfund activity has been eliminated from these government-wide financial statements.

The net costs (by function) are normally covered by general revenue (taxes, certain intergovernmental revenues and charges for services, etc.).

The Town does not allocate indirect costs. All costs are charged directly to the corresponding department.

The government-wide focus is more on the sustainability of the Town as an entity and the change in the Town's net position resulting from the current year's activities.

Measurement Focus - Basic Financial Statements & Fund Financial Statements

The financial transactions of the Town are reported in the individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balances, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements. The following fund types are used by the Town:

1. Governmental Funds:

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Town:

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

<u>Major fund:</u>

a. The General Fund is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in another fund.

Nonmajor funds:

- b. Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities or equipment.
- c. Permanent Funds are used to account for assets held by the Town that are legally restricted pursuant to Title 30-A, §5653 of the Maine State Statutes, as amended, and unless otherwise specified, only earnings, and not principal, may be used for purposes that benefit the Town or its citizenry. The Town's policy for authorizing and spending investment income follows State statutes.

2. Proprietary Funds

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. Operating revenues include charges for services, intergovernmental reimbursements and other miscellaneous fees which are a direct result of the proprietary activity. Nonoperating revenues are any revenues which are generated outside of the general proprietary activity, i.e. interest income. The following is a description of the proprietary funds of the Town:

a. Enterprise Funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of net revenues, (b) has third party requirements that the cost of providing. services, including capital costs, be recovered with fees and charges or (c) established fees and charges based on a pricing policy designed to recover similar costs.

The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories. Nonmajor funds by category are summarized into a single column, GASB Statement No. 34 sets forth minimum criteria

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(percentage of the assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues, or expenses of either the fund category or the governmental and enterprise combined) for the determination of major funds. The nonmajor funds are combined in a column in the fund financial statements.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

1. Accrual

Governmental activities in the government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

2. Modified Accrual

The governmental fund financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

The following procedures are followed in establishing budgetary data reflected in the financial statements:

- 1. Early in the second half of the year the Town prepares a budget for the fiscal year beginning July 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. A meeting of the inhabitants of the Town was called for the purpose of adopting the proposed budget after public notice of the meeting was given.
- 3. The budget was adopted subsequent to passage by the inhabitants of the Town.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Deposits and Investments

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

It is the Town's policy to value investments at fair value. None of the Town's investments are reported at amortized cost. For purposes of the statement of cash flows, all highly liquid investments with a maturity of three months or less when purchased are considered to be cash equivalents. The Town Treasurer is authorized by State Statutes to invest all excess funds in the following:

- Obligations of the U.S. Government, its agencies and instrumentalities.
- Certificates of deposits and other evidences of deposits at banks, savings and loan associations, and credit unions.

Receivables

Receivables include amounts due from governmental agencies and ambulance receivables. All receivables are current and therefore due within one year. Receivables are reported net of an allowance for uncollectible accounts and revenues net of uncollectibles. Allowances are reported when accounts are proven to be uncollectible. Allowances for uncollectible accounts netted with accounts receivable were \$84,295 for the year ended June 30, 2018. The allowance for uncollectible accounts is estimated to be \$0 as of June 30, 2018.

Interfund Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Any residual balances outstanding between governmental activities and business-type activities are reported in the governmental-wide financial statements as "internal balances".

Transactions Between Funds

Legally authorized transfers are treated as interfund transfers and are included in the results of operations of both Governmental and Proprietary Funds.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets

Capital assets purchased or acquired with an original cost of \$10,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Infrastructure such as streets, traffic signals, and signs are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the estimated useful lives.

The assets are valued at historical cost when available and estimated historical cost where actual invoices or budgetary data was unavailable. Donated fixed assets are valued at their estimated fair market value on the date received. All retirements have been recorded by eliminating the net carrying values.

Infrastructure assets include roads, bridges, underground pipe (other than related to independently owned utilities), traffic signals, etc. These infrastructure assets are likely to be the largest asset class of the Town. The Town has not retroactively recorded infrastructure.

Estimated useful lives are as follows:

Buildings	20 - 50 years
Infrastructure	50 - 100 years
Machinery and equipment	3 - 50 years
Vehicles	3 - 25 years

Long-term Obligations

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term debt to be repaid from governmental and business-type resources is reported as liabilities in government-wide statements. The long-term debt consists primarily of bonds payable, a capital lease payable, net pension liability and net OPEB liability.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest reported as expenditures. The accounting for proprietary funds is the same in the fund statements as it is in the government-wide statements.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Compensated Absences

The Town's policies regarding vacation and sick time do permit employees to accumulate earned but unused vacation and sick leave. The liability for these compensated absences is recorded as long-term debt in the government-wide financial statements. In the fund financial statements, governmental funds report only the compensated absence liability payable from expendable available financial resources. As of June 30, 2018, the Town's liability for compensated absences is \$62,428.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Participating Local District (PLD) Consolidated Plan and additions to/deductions from the PLD Consolidated Plan's fiduciary net position have been determined on the same basis as they are reported by the PLD Consolidated Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

<u>OPEB</u>

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, management received and relied on an actuarial report provided to them by the Maine Municipal Employees Health Trust (MMEHT), which determined the Town's fiduciary net position as a single employer defined benefit plan based on information provided solely by MMEHT to complete the actuarial report. Additions to/deductions from the MMEHT OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by MMEHT. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

Net Position

Net position represents the difference between all other elements in a statement of financial position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for those assets, and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on its use either through enabling legislations adopted by the Town or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Unrestricted net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or restricted net position.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Balances

In the fund financial statements, fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the Town is bound to honor constraints on the specific purpose for which amounts in the funds can be spent. Fund balance is reported in five components - nonspendable, restricted, committed, assigned and unassigned.

Nonspendable - This includes amounts that cannot be spent either because they are not in spendable form or because they are legally or contractually required to be maintained intact.

Restricted - This includes amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed - This includes amounts that can be used only for specific purposes determined by a formal action of the inhabitants of the Town. The inhabitants of the Town through Town meetings are the highest level of decision-making authority of the Town. Commitments may be established, modified, or rescinded only through a Town meeting vote.

Assigned - This includes amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. The authority for assigning fund balance is expressed by the Board of Selectmen.

Unassigned - This includes all other spendable amounts. The general fund is the only fund that reports a positive unassigned fund balance amount. Other governmental funds besides the general fund can only report a negative unassigned fund balance amount.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, the Town considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the Town considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Town meeting vote has provided otherwise in its commitment or assignment actions.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The Town adopted a set of financial policies in 2012 to guide the financial operation of the Town. Included in the policies are guidelines for accumulating and maintaining an operating position in certain budgeted governmental funds such that annual expenditures shall not exceed annual resources, including fund balances. Other funds shall be fully self-supporting to the extent that the fund balance or retained earnings of each fund shall be zero or greater.

Deferred Outflows and Inflows of Resources

In addition to assets, the statement of financial position and/or balance sheet will at times report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Town has two types of this item, deferred outflows related to pensions and deferred outflows related to OPEB. These items are reported in the statement of net position.

In addition to liabilities, the statement of financial position and or balance sheet will at times report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Town has only one type of item, deferred tax revenues, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, this item is reported in the governmental funds balance sheet. Prepaid taxes also qualify for reporting in this category. This item is reported in both the statements of net position and governmental funds balance sheet. Deferred inflows related to pensions qualify for reporting in this category as well. This item is reported only in the statement of net position. All items in this category are deferred and recognized as an inflow of resources in the period that the amounts become available.

Revenue Recognition - Property Taxes - Modified Accrual Basis

The Town's property tax for the current year was levied August 15, 2017 on the assessed value listed as of April 1, 2017, for all real and personal property located in the Town. Taxes were due on in two installments on October 6, 2017 and May 4, 2018. Interest on unpaid taxes commenced on October 7, 2017 and May 5, 2018, at 7% per annum.

Property tax revenues are recognized when they become available. Available includes those property tax receivables expected to be collected within sixty days after year end. The remaining receivables have been recorded as deferred revenues.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The Town is permitted by the laws of the State of Maine to levy taxes up to 105% of its net budgeted expenditures for the related fiscal period. The amount raised in excess of 100% is referred to as overlay and amounted to \$174,927 for the year ended June 30, 2018.

Tax liens are placed on real property within twelve months following the tax commitment date if taxes are delinquent. The Town has the authority to foreclose on property eighteen months after the filing of the lien if tax liens and associated costs remain unpaid.

Program Revenues

Program revenues include all directly related income items applicable to a particular program (charges to customers or applicants for goods, services, or privileges provided, operating or capital grants and contributions, including special assessments).

Operating/Nonoperating Proprietary Fund Revenues

Operating revenues consist mainly of direct revenue sources and/or charges for services applicable to that fund's ongoing operations. All revenue and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Encumbrance Accounting

Encumbrances are not liabilities and, therefore, are not recorded as expenditures until receipt of material or service. For budgetary purposes, appropriations lapse at fiscal year-end. The Town does not utilize encumbrance accounting for its general fund.

Use of Estimates

During the preparation of the Town's financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosure of contingent items as of the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results may differ from these estimates.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 2 - DEPOSITS AND INVESTMENTS

State statutes require that all investments made by the Town consider the safe and sound investment of principal and preservation of capital in the overall portfolio, maintenance of sufficient liquidity to meet day-to-day operations and other cash requirements and maximization of income, within established investment risk guidelines, with consistent cash flows throughout the budgetary cycle. These investment policies apply to all Town funds.

Deposits:

Custodial credit risk for deposits is the risk that, in the event of a failure of a depository financial institution, the Town will not be able to recover its deposits. The Town does have a policy covering custodial credit risk for deposits. The Town maintains deposits in qualifying financial institutions that are a member of the FDIC or NCUSIF as defined in Title 30-A, Section 5706 of the Maine Revised Statutes. At June 30, 2018, the Town's cash balances amounting to \$4,265,723 were comprised of bank deposits of \$4,287,510. Of these bank deposits, \$300,001 was fully insured by federal depository insurance and consequently was not exposed to custodial credit risk and \$3,987,509 was collateralized with securities held by the financial institution's agent in the Town's name.

Account Type	Bank Balance		
Checking accounts Money markets accounts Savings accounts	\$	50,001 4,147,530 89,980	
	\$	4,287,510	

Investments:

Custodial credit risk for investments is that, in the event of failure of the counterparty, the Town will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. Currently, the Town does have a policy for custodial credit risk for investments.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 2 - DEPOSITS AND INVESTMENTS (CONTINUED)

At June 30, 2018, the Town's investments were comprised of the following:

	Fai	r		Le	ess than			
Investment Type	Valu	le	N/A		1 Year		1 - 5 Years	
Certificates of Deposit	\$ 23	,874 \$	-	\$	4,133	\$	19,741	

The certificates of deposit of \$23,874 were collateralized with securities held by the financial institution's agent in the Town's name.

Credit risk - Statutes for the State of Maine authorize the Town to invest in obligations of the U.S. Treasury, agencies and instrumentalities, other states and Canada, provided such securities are rated within the three highest grades by an approved rating service of the State of Maine, corporate stocks and bonds within statutory limits, financial institutions, mutual funds and repurchase agreements. The Town does have an investment policy on credit risk. Generally, the Town invests excess funds in cash management accounts and various insured certificates of deposit.

Interest rate risk - is the risk that changes in interest rates will adversely affect the fair value of an investment. The Town does have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from fluctuations in interest rates.

NOTE 3 - INTERFUND RECEIVABLES AND PAYABLES

Interfund balances at June 30, 2018 consisted of the following individual fund receivables and payables.

	eceivables Due from)	Payables (Due to)
General fund Nonmajor capital projects funds Nonmajor permanent funds Enterprise fund	\$ 19,661 141,798 - 210,808	\$ 352,606 3,515 16,146
	\$ 372,267	\$ 372,267

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 4 - CAPITAL ASSETS

The following is a summary of changes in capital assets for the year ended June 30, 2018:

	Balance, 7/1/17	Additions	Disposals	Balance, 6/30/18
Governmental activities

NOTE 9 - DEFINED BENEFIT PENSION PLAN

MAINE PUBLIC EMPLOYEES RETIREMENT SYSTEM

Plan Description

District employees contribute to the Maine Public Employees Retirement System (MainePERS), a cost-sharing multiple-employer defined benefit pension plan established by the Maine State Legislature. Title 5 of the Maine Revised Statutes Annotated assigns the authority to establish and amend benefit provisions to the

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 9 - DEFINED BENEFIT PENSION PLAN (CONTINUED)

Participating Local District (PLD) Consolidated Plan's advisory group, which reviews the terms of the plan and periodically makes recommendations to the Legislature to amend the terms. The Maine Public Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the Consolidated Plan. That report may be obtained online at <u>www.mainepers.org</u> or by contacting the System at (800) 451-9800.

Benefits Provided

The Maine Public Employees Retirement System provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members The System's retirement programs provide defined retirement and beneficiaries. benefits based on members' average final compensation and service credit earned as of retirement. Vesting (i.e., eligibility for benefits upon reaching qualification) occurs upon the earning of five years of service credit (effective October 1, 1999, the prior ten-year requirement was reduced by legislative action to five years for employees of PLDs). In some cases, vesting occurs on the earning of one year of service credit immediately preceding retirement at or after normal retirement age. For PLD members, normal retirement age is 60. The monthly benefit of members who retire before normal retirement age by virtue of having at least 25 years of service credit is reduced by a statutorily prescribed factor for each year of age that a member is below her/his normal retirement age at retirement. The System also provides disability and death benefits which are established by contract with PLD employers under applicable statutory provisions.

Upon termination of membership, members' accumulated employee contributions are refundable with interest, credited in accordance with statute. Withdrawal of accumulated contributions results in forfeiture of all benefits and membership rights. The annual rate of interest credited to members' accounts is set by the System's Board of Trustees and is currently 2.45%.

Contributions

Retirement benefits are funded by contributions from members and employers and by earnings on investments. Disability and death benefits are funded by employer normal cost contributions and by investment earnings. The District's plan members are part of the PLD's plan "AC" and are required to contribute 8.0% of their annual covered salary and the District is required to contribute at an actuarially determined rate. The current rate is 9.5% of covered payroll. The contribution rates of plan members and the District are established and may be amended by the Maine Public Employee Retirement Systems advisory group. The District's contribution to the MainePERS PLD Consolidated Plan for the year ended June 30, 2018 was \$74,307.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 9 - DEFINED BENEFIT PENSION PLAN (CONTINUED)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2018, the District reported a liability of \$510,756 for its proportionate share of the net pension liabilities for the plan. The net pension liabilities were measured as of June 30, 2017, and the total pension liabilities used to calculate the net pension liabilities was determined by an actuarial valuation as of that date. The District's proportion of the net pension liabilities were based on a projection of the District's long-term share of contributions to each pension plan relative to the projected contributions of all PLDs, actuarially determined. At June 30, 2017, the District's proportion was 0.124745%, which was an increase of 0.00676% from its proportion measured as of June 30, 2016.

For the year ended June 30, 2018, the District recognized net pension expense of \$20,525. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	PLD Plan			
	Deferred Outflows of Resources			erred Inflows Resources
Differences between expected and actual experience	\$	-	\$	24,538
Changes of assumptions		43,462		-
Net difference between projected and actual earnings on pension plan investments Changes in proportion and differences between		176,021		190,065
contributions and proportionate share of contributions		48,704		4,601
Contributions subsequent to the measurement date		74,307		
Total	\$	342,494	\$	219,204

\$74,307 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

Thereafter		-

Actuarial Methods and Assumptions

The collective total pension liability for the Plan was determined by an actuarial valuation as of June 30, 2017, using the following methods and assumptions applied to all periods included in the measurement:

Actuarial Cost Method

The Entry Age Normal actuarial funding method is used to determine costs. Under this funding method, the total employer contribution rate consists of two elements: the normal cost rate and the unfunded actuarial liability (UAL) rate.

The individual entry age normal method is used to determine liabilities. Under the individual entry age normal method, a normal cost rate is calculated for each employee. This rate is determined by taking the value, as of age at entry into the plan, of the member's projected future benefits, and dividing it by the value, also as of the member's entry age, of his or her expected future salary. The normal cost for each employee is the product of his or her pay and his or her normal cost rate. The normal cost for the group is the sum of the normal costs for all members.

Experience gains and losses, i.e., decreases or increases in liabilities and/or in assets when actual experience differs from the actuarial assumptions, affect the unfunded actuarial accrued liability.

Asset Valuation Method

The actuarial valuation employs a technique for determining the actuarial value of assets which dampens the swing in the market value. The specific technique adopted in this valuation recognizes in a given year one-third of the investment return that is different from the actuarial assumption for investment return.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 9 - DEFINED BENEFIT PENSION PLAN (CONTINUED)

Amortization

The net pension liability of the PLD Consolidated Plan is amortized on an open basis over a period of fifteen years.

Significant actuarial assumptions employed by the actuary for funding purposes as of June 30, 2017 are as follows:

Investment Rate of Return - For the PLD Plan, 6.875% per annum, compounded annually.

Salary Increases, Merit and Inflation - Members of the consolidated plan for PLDs, 2.75% to 9.00% per year.

Mortality Rates - For participating local districts, the RP2014 Total Dataset Healthy Annuitant Mortality Table, for males and females, is used. For all recipients of disability benefits, the RP2014 Total Dataset Disabled Annuitant Mortality Table, for males and females, is used.

Cost of Living Benefit Increases – 2.20% for participating local districts.

The long-term expected rate of return on pension plan assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major class of assets. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as June 30, 2017 are summarized in the following table.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 9 - DEFINED BENEFIT PENSION PLAN (CONTINUED)

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
A3361 01835	Allocation	Netum
Public equities	30.0%	6.0%
US Government	7.5%	2.3%
Private equity	15.0%	7.6%
Real assets:		
Real estate	10.0%	5.2%
Infrastructure	10.0%	5.3%
Natural resources	5.0%	5.0%
Traditional Credit	7.5%	3.0%
Alternative Credit	5.0%	4.2%
Diversifiers	10.0%	5.9%

Discount Rate

The discount rate used to measure the collective total pension liability was 6.875% for 2017. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and non-employer entity contributions will be made at contractually required rates, actuarially determined. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The following table shows how the collective net pension liability(asset) as of June 30, 2017 would change if the discount rate used was one percentage point lower or one percentage point higher than the current rate. The current rate is 6.875% for the PLD Consolidated Plan.

	ſ	1% Decrease	Discount Rate	1% Increase
<u>PLD Plan:</u> Discount rate		5.875%	6.875%	 7.875%
Town's proportionate share of the net pension liability	\$	1,024,734	\$ 510,756	\$ 123,811

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 9 - DEFINED BENEFIT PENSION PLAN (CONTINUED)

Changes in net pension liability are recognized in pension expense for the year ended June 30, 2017 with the following exceptions.

Differences between Expected and Actual Experience

The difference between expected and actual experience with regard to economic or demographic factors were recognized in pension expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members in each plan. For 2017, this was three years for the PLD Consolidated Plan; prior to 2017, this was four years for the PLD Consolidated Plan.

Changes in Net Pension Liability

Differences between Projected and Actual Investment Earnings

Differences between projected and actual investment earnings were recognized in pension expense using a straight-line amortization method over a closed five-year period.

Changes in Assumptions

Differences due to changes in assumptions about future economic or demographic factors or other inputs were recognized in pension expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members in each plan. The actuarial assumptions used for the year ended June 30, 2017 valuation were based on the results of an actuarial experience study for the period of June 30, 2012 through June 30, 2015.

Changes in Proportion and Differences between Employer Contributions and Proportionate Share of Contributions

Differences resulting from a change in proportionate share of contributions and differences between total employer contributions and the employer's proportionate share of contributions were recognized in pension expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members in each plan. Differences between total employer contributions and the employer's proportionate share of contributions may arise when an employer has a contribution requirement for an employer specific liability.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

Pension Plan Fiduciary Net Position

Additional financial and actuarial information with respect to the Plan can be found in the MainePERS' 2017 Comprehensive Annual Financial Report available online at <u>www.mainepers.org</u> or by contacting the System at (207) 512-3100.

NOTE 10 - OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN

MAINE MUNICIPAL EMPLOYEES HEALTH TRUST

Plan Description

The Town and Town retirees contribute to the Town's OPEB Plan with the Maine Municipal Employees Health Trust (MMEHT), a single employer defined benefit plan. Contributions and membership in this Plan are voluntary and may be terminated at any time by the Town and/or the Town retirees. MMEHT is a fully funded, self-insured trust which provides benefits to municipal and quasi-municipal organizations and county governments and acts as the agent to the Town concerning administration of this Plan. Title 24-A Chapter 81 of the Maine Revised Statutes Annotated authorizes the regulation of MMEHT as a Multiple Employer Welfare Arrangement by the State of Maine Bureau of Insurance. Benefits and plans are designed and governed by MMEHT participants and are administered by a number of third-party administrators contracted by MMEHT. MMEHT issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by MMEHT at (800) 852-8300.

Benefits Provided

This Plan provides medical/prescription drug benefits during retirement to Medicare and non-Medicare retirees and their surviving spouses with varying levels of benefits determined by voluntary plan selection by the retiree as well as applicable Medicare statutes and regulations. The Plan also provides an automatic life insurance benefit of \$2,000 to participants which includes a surviving spouse benefit for the same. The employee must meet the minimum requirement of age 55 with at least 5 years of service at retirement to be eligible for the Plan. The retiree must enroll when first eligible and continue coverage without interruption.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 10 - OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN (CONTINUED)

Employees Covered by Benefit Terms

At January 1, 2018, the following employees were covered by the benefit terms:

Active members	19
Retirees and spouses	7
Total	26

Contributions

Retiree and spouse premium amounts are funded by the retiree at the rate for the coverage elected by the retiree. Premium rates are those determined by the MMEHT's Board of Trustees to be actuarially sufficient to pay anticipated claims. Premiums for retiree life insurance coverage are factored into the premiums paid for basic coverage. Retirees and spouses must contribute 100% of the premium amounts. The sponsoring employer pays the remainder of the premium. Medical benefits are provided for the life of the retiree and surviving spouses.

Retiree Premium Amounts:

The following monthly premium amounts were reported on the individual data file. Actual plan election was reflected in expected retiree premium amounts.

Pre-Medicare	Single Coverage	Family Coverage
PPO 500	\$925	\$2,076
<u>Medicare</u>		
Medicare-Eligible Retirees	\$528	\$1,055

Total OPEB Liability, OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2018, the Town reported a liability of \$319,776 for its total OPEB liability for this Plan. The total OPEB liability was measured as of January 1, 2018 and was determined by an actuarial valuation as of that date. The Town's total OPEB liability was based on the Entry Age Normal Actuarial Cost Method which does not reflect future changes in benefits, subsidies, penalties, taxes or administrative costs that may be required as a result of the Patient Protection and Affordable Care Act of 2010 (ACA) related legislation and regulations.

For the year ended June 30, 2018, the Town recognized OPEB expense of \$26,265. At June 30, 2018, the Town reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

Discount Rate

The discount rate is the assumed interest rate used for converting projected dollar related values to a present value as of January 1, 2018. The discount rate determination is based on the high-quality AA/Aa or higher bond yields in effect for 20-year, tax-exempt general obligation municipal bonds using the Bond Buyer 20-Bond GO Index. The rate of 3.44% per annum for December 31, 2018 was based upon a measurement date of December 31, 2017. The sensitivity of net OPEB liability to changes in discount rate are as follows:

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 10 - OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN (CONTINUED)

	1%DiscountDecreaseRate									1% Increase
		2.44%	3.44%		4.44%					
Total OPEB liability Plan fiduciary net position	\$	363,213	\$	319,776	\$	283,889 -				
Net OPEB liability	\$	363,213	\$	319,776	\$	283,889				
Plan fiduciary net position as a percentage of the total OPEB liability		0.00%		0.00%		0.00%				

Healthcare Trend

The healthcare trend is the assumed dollar increase in dollar-related values in the future due to the increase in the cost of health care. The healthcare cost trend rate is the rate of change in per capita health claim costs over time as a result of factors such as medical inflation, utilization of healthcare services, plan design and technological developments. The sensitivity of net OPEB liability to changes in healthcare cost trend rates are as follows:

	1% Decrease		Healthcare Trend Rates		1% Increase	
Total OPEB liability Plan fiduciary net position	\$	283,304	\$	319,776	\$	364,531
Net OPEB liability	\$	283,304	\$	319,776	\$	364,531
Plan fiduciary net position as a percentage of the total OPEB liability		0.00%		0.00%		0.00%

Actuarial Methods and Assumptions

The total OPEB liability for the Plan was determined by an actuarial valuation as of January 1, 2017, using the following methods and assumptions applied to all periods included in the measurement:

Actuarial Cost Method

The Entry Age Normal Actuarial Cost Method is used to determine costs. Under this funding method, a normal cost rate is determined as a level percent of pay for each active Plan member and then summed to produce the total normal cost for this Plan. The unfunded actuarial liability is the difference between the actuarial liability and the actuarial value of assets.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 10 - OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN (CONTINUED)

For medical and pharmacy, historical claims and census records were assembled and provided through June 30, 2017. Medicare and non-Medicare eligible medical and prescription experience were analyzed. It was assumed that current enrollment distribution of benefit options would remain constant in the future for retirees. The cost was distributed based on the current covered population and the actuary's standard age curves which vary by age, gender and Medicare status. Children costs are converted to a load on the non-Medicare retirees which implicitly assumes that future retirees will have the same child distribution as current retirees.

Amortization

The total OPEB liability of this Plan is amortized on an open 30-year period. The amortization method is a level dollar amortization method.

Assumptions

The actuarial assumptions used in the January 1, 2018 actuarial valuation was based on economic, demographic and claim and expense assumptions that resulted from actuarial studies conducted for the period of December 31, 2017 and December 31, 2018.

Significant actuarial assumptions employed by the actuary for economic purposes are the assumptions that were adopted by Maine State Retirement Consolidated Plan for Participating Local District at June 30, 2016 and based on the experience study covering the period from June 30, 2012 through June 30, 2015. As of January 1, 2018, they are as follows:

Discount Rate - 3.44% per annum.

Trend Assumptions:

Pre-Medicare Medical - Initial trend of 8.20% applied in 2018 grading over 14 years to 4.00% per annum.

Pre-Medicare Drug - Initial trend of 9.60% applied in 2018 grading over 14 years to 4.00% per annum.

Medicare Medical - Initial trend of 4.93% applied in 2018 grading over 14 years to 4.00% per annum.

Medicare Drug - Initial trend of 9.60% applied in 2017 grading over 14 years

to 4.00% per annum.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 10 - OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN (CONTINUED)

Administrative and claims expense - 3% per annum.

Medical and drug trends were blended to develop non-Medicare and Medicare trends based on experience weight as listed below.

Future plan changes - Assumes that the current Plan and cost-sharing structure remain in place for all future years.

Significant actuarial assumptions employed by the actuary for demographic purposes are the assumptions that were adopted by Maine State Retirement Consolidated Plan for Participating Local District at June 30, 2016 and based on the experience study covering the period from June 30, 2012 through June 30, 2015. As of January 1, 2018, they are as follows:

Retirement Rates - Rates vary for plans with no explicit employer subsidy (or payment) versus those plans defining an explicit employer subsidy (or payment). The rates are based on assumptions from the Maine State Retirement Consolidated Plan for Participating Local District at June 30, 2016.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

Claims reflect all medical and prescription plans offered based on completed incurred experience through June 30, 2017 and projected to 2018 and associate enrollment in the various programs options offered.

Annual administrative and claims adjudication expenses are assumed to be \$430 per period for the year 2018.

Claims below age 65 have been loaded 4.3% for medical and 2.8% for drugs for the cost of children enrolled as dependent of eligible retirees. This figure is based on the expected cost for children of the current retirees. This assumption implicitly assumes that future retirees will have the same child distribution as current retirees.

No covered persons under 65 are assumed to be on Medicare and participants age 65 or older are assumed to be enrolled in Medicare.

Affordable Care Act (ACA) and Healthcare Marketplace - A 2.5% load has been built in to reflect the potential impact of changes from the ACA and its impact on the marketplace and program costs. Some key items are PCORI fees, the extra government subsidies for Medicare Part D that can be enrolled in through an Employer Group Waiver Program, minimum loss ratio requirements that impacted some fully insured programs, federal premium taxes, taxes and requirements on providers in the healthcare system, dynamics of the marketplace with Exchanges, Accountable Care Organizations, etc, and the potential impact of the Excise Tax associated with highcosts employer sponsored health plans.

Medical Plan Election - employees will continue in their current medical plan for their entire career.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 10 - OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN (CONTINUED)

Second-to-Die Spousal Life Insurance - not explicitly valued and was estimated to impact roughly 0.2% of the Plan's total liability.

Dependent Children - no liability assumed for dependent children's benefits.

Changes in Net OPEB Liability

Changes in net OPEB liability are recognized in OPEB expense for the year ended June 30, 2018 with the following exceptions:

Differences between Expected and Actual Experience

The difference between expected and actual experience are recognized in OPEB expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members in each plan. The first year is recognized as OPEB expense and the remaining years are shown as either deferred outflows of resources or deferred inflows of resources. The difference between expected and actual experience as of January 1, 2018 was \$8,697.

Changes in Assumptions

Differences due to changes in assumptions about future economic, demographic or claim and expense factors or other inputs are recognized in OPEB expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members in each plan. The actuarial assumptions used in the June 30, 2017 and June 30, 2016 actuarial valuations were based primarily on those used by Maine State Retirement Consolidated Plan for Participating Local District at June 30, 2016 which were based on the experience study covering the period from June 30, 2012 through June 30, 2015. The first year is recognized as OPEB expense and the remaining years are shown as either deferred outflows of resources or deferred inflows of resources. The amortization period was six years for 2018. For the fiscal year ended June 30, 2018, there were no changes in assumptions with the exception of the claim costs and retiree contributions being updated to reflect current healthcare costs.

Differences between Projected and Actual Earnings on OPEB Plan Investments

Differences between projected and actual investment earnings are recognized in OPEB expense using a straight-line amortization method over a closed five-year period. The first year is recognized as OPEB expense and the remaining years are shown as either deferred outflows of resources or deferred inflows of resources.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 10 - OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN (CONTINUED)

OPEB Plan Fiduciary Net Position

Additional financial and actuarial information with respect to this Plan can be found at the Town Office at P.O. Box 422, North Berwick, Maine 03906.

NOTE 11 - EXPENDITURES OVER APPROPRIATIONS

The following appropriations were exceeded by actual expenditures:

	E	Excess
Fire Department (Article 7)	\$	1,842
Transfer Station (Article 17)		4,344
Town Boards (Article 31)		839
Cemeteries & Historical Society (Article 34)		2,225
Scholarships		3,000
Liens		4,111
	\$	16,361

NOTE 12 - CONTINGENCIES

The Town is contingently liable for its proportionate share of any defaulted debt by entities of which it is a member. At June 30, 2018, the Town's share was approximately:

Outstandir		Town's	Total			
Debt		Percentage	Share			
County of York RSU #60	\$ 3,900,000 7,611,443	2.11% 29.37%	\$ 82,134 2,235,481 \$ 2,317,615			

In the normal course of operations, the Town receives grant funds from Federal and State agencies. The grant programs are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the granting funds. Any liability for reimbursement which may arise as the result of these audits is not believed to be material.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 12 - CONTINGENCIES (CONTINUED)

With regard to pending legal claims or any unasserted claims, it is not feasible at this time to predict or determine their outcome. Management believes, however, that settlement amounts, if any, will not have a material adverse effect on the Town's financial position.

NOTE 13 - LANDFILL CLOSURE

The North Berwick landfill is at 100% capacity to date. Therefore, the estimated remaining landfill life is zero years. Federal and state laws require that certain post-closure care be met. The Town estimates that on an annual basis, some immaterial costs will be incurred for post-closure care. The annual amount will be paid for within the Town's annual operating budget.

NOTE 14 - RISK MANAGEMENT

The Town is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the Town participates in a public entity risk pool sponsored by the Maine Municipal Association. The Maine Municipal Association Group Risk Pool is a state-chartered pool established exclusively for Maine municipalities. The pool provides certain property, liability, fidelity and vehicle coverage. If the assets of the pool are at any time actuarially determined to be insufficient to enable the pool to discharge its legal obligations, other obligations, and actuarially sound reserves, the pool has the power to make up the deficiency by the levy of a prorated assessment. There have been no deficiencies during the past three years and management believes that no deficiency exists at June 30, 2018.

The Town is a member of the Maine Municipal Association - Property and Casualty Pool and pays an annual premium for its coverage. Under the property portion of the policy, coverage is provided after a per occurrence deductible is met. The limit of coverage for liability claims brought under the Maine Tort Claims Act is \$400,000 per occurrence. A \$2,000,000 limit of liability is provided for liability claims outside the Maine Tort Claims Act. There is no aggregate liability limit. Coverage for Public Officials Liability, including Employment Practices, is a part of the program. Coverage is on an occurrence basis, rather than a "claims made" form. A \$2,000,000 limit of liability is provided for all claims for Wrongful Acts seeking monetary damages pursuant to federal or state law for which the Maine Tort Claims Act does not provide immunity or limitations. Each member has a \$4,000,000 annual aggregate limit. An annual sublimit of \$100,000 per member applies for all back wages and/or future salary awards for employment related claims, subject to a \$5,000 retention and a 10% contribution by the member.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 14 - RISK MANAGEMENT (CONTINUED)

The Town is also a member of the Maine Municipal Association - Worker Compensation Trust Fund ("Fund"). The Fund was created to formulate, develop and administer a program of modified self-funding for the Fund's membership, obtain lower costs for worker's compensation coverage and develop a comprehensive loss control program. The Town pays an annual premium to the fund for its worker's compensation coverage. The Town's agreement with the Fund provides that the fund will be self-sustaining through member premiums and will provide, through commercial companies' reinsurance contracts, coverage for claims in excess of \$1,000,000.

The Town is also a member of the Maine Municipal Association - Unemployment Compensation Group Fund ("MMA UC Fund"). The MMA UC Fund was created to assist in meeting members' obligations under the Employment Security Act in an efficient and cost-effective manner. The Fund is composed of individual municipalities and other public and related non-profit entities that are individually self-insured but administered as a group. Within the Fund, each member has a separate account. As such, the Town makes quarterly payments into their account, based on rates developed by MMA's consulting actuary. Claims, if any, are paid out of the Town's own account. The Maine Department of Labor classifies MMA's UC Fund members as Direct Reimbursement Employers. In other words, the Fund reimburses the Maine DOL on the Town's behalf only when the Town has unemployment claims from present or former employees.

Occasionally, the Town may have layoffs or resignations or even a part-time employee losing a primary job, that lead to larger claims payments than anticipated. When claims exceed the balance of the Town's account, the UC Fund continues to pay the Town's claims with no regard for the negative balance. Repayment of a negative balance is spread out over a period of years to avoid a financial hardship to the Town. Based on the coverage provided by the insurance purchased, the Town is not aware of any material actual or potential claim liabilities which should be recorded as of June 30, 2018. There were no significant reductions in insurance coverage from that of the prior year and amounts of settlements have not exceeded insurance coverage in the past three years.

NOTE 15 - TAX INCREMENT FINANCING DISTRICT & ABATEMENTS

The Town has established a tax increment financing district in accordance with Maine statutes to finance economic development programs located in the Town of North Berwick, Maine. The expenditures from these development programs will be recovered in future years through an incremental tax levied upon the district's so called "captured assessed value". A portion of the incremental tax revenues will be returned to the district to repay principal and interest on any indebtedness, to fund the expenditures of the development program, and to finance future expansion.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 15 - TAX INCREMENT FINANCING DISTRICT & ABATEMENTS (CONTINUED)

Canal Street Affordable Housing Development District Development Program

On November 28, 2006, the North Berwick Board of Selectmen, as well the Maine State Housing Authority, approved a Tax Increment Financing District to expand and diversify the Town's tax base, improve its economy and provide affordable, livable, rental housing developments for senior citizens. The area of the District is approximately 4 acres at the old woolen mill property, divided into approximately 40 rental housing units. The potential projects that will be implemented under this Development Program include: renovation of the mill buildings, removal of the outlying buildings, remediation of environmental contamination of the site and other redevelopments. The original assessed value of the property is \$606,600. The Town anticipates over the life of the district that new development, rehabilitation, and redevelopment will result in approximately \$707,200 in new taxable value. Tax increment revenues generated from this value over the life of the district will be approximately \$3,400,000. The Development Program provides for 100% of the increase in assessed value of the District to be captured and designated as captured assessed value for 20 years. The tax increment revenues will be deposited by the Town into the Development Program Fund for a period of 20 years. The Development Program Fund is pledged to and charged with the payment of the project costs in the manner provided in 30-A M.R.S.A. §5227(3)(A).

The TIF District will remain in place for a period of 20 years from adoption. The allocation of tax increment revenues, through a credit enhancement agreement, to be paid to owners/developers of specified property, will commence by agreement between the Town and the owner/developer and will continue for a period not to exceed 20 years or the remainder of the term of the District designation, whichever is less. No more than 50% of the property taxes to be generated on the improvements within the District will be returned to the developer. The remaining amount will be retained by the Town and used to fund the development plan of the District. The Selectmen shall determine, in its discretion, whether it is necessary or appropriate to enter any Credit Enhancement Agreement to grant these abatements. The state law does not provide for the recapture of abated taxes in the event an abatement recipient does not fill the commitment it makes in return for the tax abatement. The Town does not currently expect that any of the costs of the projects will be financed through issuance of any municipal indebtedness.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 15 - TAX INCREMENT FINANCING DISTRICT & ABATEMENTS (CONTINUED)

Abatements

The Town has not made any commitments as part of the Credit Enhancement Agreements other than to reduce taxes. The Town is not subject to any tax abatement agreements entered into by other governmental entities. The Town currently only has one tax abatement agreement, the North Berwick Affordable Housing Limited Partnership, which is summarized below:

North Berwick Affordable Housing Limited Partnership

On November 28, 2006, the Town of North Berwick, Maine entered into a credit enhancement agreement with the Caleb Foundation for the development of rental housing units and to provide affordable housing in the Town to senior citizens. The agreement is effective for 20 years. The original valuation of the property was \$606,600. 50% of the property taxes to be generated on the improvements within the District will be returned to the developer for 20 years. The remaining 50% will be retained by the Town and used to fund the development plan of the District.

For the fiscal year ended June 30, 2018, the Town abated property taxes for the following program:

Tax Abatement Program	Percentage of Taxes Abated During the Fiscal Year	Amount of Taxes Abated During the Fiscal Year		
North Berwick Affordable Housing Limited Partnership	50%	\$	22,512	

NOTE 16 - RESTATEMENT

The net position of the governmental activities has been restated at July 1, 2017 to account for the implementation of GASB Statement No. 75 Accounting and Financial Reporting for Postemployment Benefits Other than Pensions - an amendment of GASB Statement No. 45, as amended (issued 06/04), and GASB Statement No. 57 (issued 12/09). The beginning net position was restated by \$293,511. The resulting restatement decreased net position from \$11,287,838 to \$10,994,327.

Proven Expertise and Integrity

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Selectmen Town of North Berwick North Berwick, Maine

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Town of North Berwick, Maine as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Town of North Berwick, Maine's basic financial statements, and have issued our report thereon dated January 17, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of North Berwick, Maine's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of North Berwick, Maine's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of North Berwick, Maine's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of North Berwick, Maine's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT:

TO: The Board of Trustees

NO. BERWICK WATER DISTRICT North Berwick, Maine

I have audited the accompanying financial statements of North Berwick Water District as of and for the years ended December 31, 2017 and 2016, as listed in the table of contents. These financial statements are the statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of misstatement. An audit includes examining, on a test basis, evidence supporting the amount and disclosures in the annual statements. An audit also includes assessing the accounting principles used by management, as well as significant estimates made by management and evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

As more fully described in Note 1, North Berwick Water District prepares its' financial statements using accounting practices as prescribed by Maine Public Utilities Commission, which practices differ from generally accepted accounting principles. The effects of these differences between these regulatory accounting practices and generally accepted accounting principles are considered immaterial.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of North Berwick Water district as of December 31, 2017 and 2016 and the results of its operations and its cash flows for the years then ended in conformity with the regulatory basis of accounting as described in Note #1.

This report is intended solely for the information and use of the District's management, Board of Trustees, Maine PUC and Maine Municipal Bond Bank. It is not intended to be used and should not be used by anyone other than those specified parties without the written permission of the auditor.

NORTH BERWICK WATER DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED DECEMBER 31. 2017

INTRODUCTION OF ANNUAL FINANCIAL REPORT

North Berwick District (the District) was established in 1983, as a quasi-municipal water utility district organized by a special act of the Maine Legislature to provide and maintain a reliable supply of high quality drinking water for its' customers and residents. We will manage and maintain its' water quality including adequate pressures as a source of fire protection to our customers and property owners within the village of North Berwick, Maine.

The District is governed by a five-member Board of Trustees. The District is regulated by the Maine Public Utilities Commission, hereinafter called the "Maine PUC". Any changes in the District's water rate structure must be approved by Maine PUC. A public hearing open to the District's rate payers and certain customer notices is part of the process.

The District uses the Proprietary Fund, which is financed and operated in a manner similar to a private business. This Management Discussion an Analysis (MD &A) serves as an introduction to the audited basic financial statements and Notes to Financial statements. The MD & A reflects Management's analysis of its' financial condition and financial performance. It is presented to give the reader more insight regarding the District's finances and operations.

The basic financial statements are as follows: Condensed Statements of Net Assets (proprietary fund) Operating Statement and Changes in Equity Capital Cash Flows Statement

AT DECEMBER 31,

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The summary of significant accounting policies is presented to support the representations of North Berwick Water District's (the District) management who is responsible for their integrity and objectivity. These accounting policies conform to guidelines as developed and monitored by the Maine Public Utilities Commission.

Organization:

The affairs of the District are managed by a Board of Trustees, consisting of five members. The District provides safe drinking water to approximately 640 customers within the Town. The North Berwick Water District was established during 1983 and also began providing water service to the main village of North Berwick.

Accounting Method and Regulation:

Because the operations of the District are being financed through user charges, the District is being treated as an enterprise fund for financial reporting purposes. The District's accounting records as well as its' financial statements have been prepared utilizing the accrual basis of accounting. Under this method, revenues are recognized when earned and expenses are recognized when incurred. Depreciation on contributed property is not recorded by the District. Other terminology included in these financial statements is consistent with the annual PUC report which is required to be filed annually. Additional information may be found at Maine PUC's website: http://mpuc.informe.org

Utility Plant Equipment:

Utility Plant and equipment is stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives - ranging from five to seventy-five years. These rates used for depreciation estimates conform to Maine PUC- chapter 680.

Capitalization policy:

The amounts charged to the utility plant accounts represent all reasonable and necessary costs, including direct labor, materials, overhead and equipment charges related to pipeline expandsion and construction infrastructure, wells and related waterworks system equipment.

Use of Estimates:

Management uses estimates and assumptions in preparing these financial statements in accordance with generally accepted accounting principles. These estimates affect the reported amounts of utility plant, certain liabilities, equity, revenues and expenses. Actual results could differ from estimated amounts.

NOTES TO FINANCIAL STATEMENTS

AT DECEMBER 31,

Cash and Cash Equivalents:

For purposes of the Statement of Net Assets and Cash Flows, the District considers all investments with a maturity date of three months or less to be classified as cash equivalents. As of December 31, 2016 and 2017, all cash was available to the District and was deposited in local banks with any excess of FDIC insurance limits also insured or collateralized.

Accounts Receivable:

Accounts Receivable are stated at net realizable value without any provision for uncollectible at December 31, 2017 and 2016. Any uncollectible accounts are written off in the year that management considers the account to be worthless.

Restricted Assets:

Cash balances required to be maintained in accordance with bonded debt terms as provided by Maine Municipal Bond Bank are reported as restricted assets.

Deferred Financing Cost:

Deferred financing costs consist of legal fees and other costs that were incurred in connection with long-term debt are being amortized ratably over the term of the bond.

Revenue Recognition:

Revenue is recognized when water customers are billed by the District.

Operating Revenues:

This revenue category includes sales of water (mostly metered), public & private fire protection and tower rentals.

Income Taxes:

The North Berwick Water District qualifies as a tax exempt organization under the provisions of internal Revenue Code and, accordingly, its revenue is not subject to any federal or state of Maine income taxes.

Contributions in Aid of Construction:

Under provisions of GASB No. 33, the District is required to include Contributions in Aid of construction as income in the current year and all prior years as equity capital.

NOTES TO FINANCIAL STATEMENTS AT DECEMBER **31**,

NOTE #4- MAJOR CUSTOMER:

The District derived approximately 25.00% and 25.8% of its operating revenues from the Town of North Berwick relating to fire protection services and the maintenance of a hydrant system. Metered water sales to the District's largest industrial customer were as follows:

Fiscal year ended 12-31-2017; \$69,999

Fiscal year ended 12-31-2016; \$61,466

NORTH BERWICK WATER DISTRICT NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE #5- PENSION PLAN

Effective July 1, 2006, the District elected to join the Maine State Retirement system regular plan AC for all eligible employees with prior service limited to fifteen years. Current costs to the District are 7.80 of payroll. Employees also contribute 7.0% of gross wages.

NOTE #6- CASH AND DEPOSITS

Deposits:

The District's deposits are categorized as follows to provide an indication of the level of risk assumed by the District at End of year. Category 1 includes deposits that are fully covered by federal depository insurance. (e.g. FDIC) Category #2 includes uninsured deposits covered by collateral held by the bank's trust department in the District's name. Category #3 includes uninsured and uncollateralized deposits. At December 31, 2016 cash and deposits consisted of the following:

Category #1 - fully insured	\$ 250,000
Category #2	270,897
Category #3	-
Total balance at year end.	\$ 520,897

As of December 31, 2017 and 2016, all of the District's cash accounts were with one local bank.

NOTE 7- SUBSEQUENT EVENTS:

The District has evaluated subsequent events as of May 30th, 2018, with no events being found that would require disclosure.

Board of Trustees North Berwick Sanitary District North Berwick, Maine

Report on the Financial Statements

We have audited the accompanying financial statements of North Berwick Sanitary District, as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position North Berwick Sanitary District as of December 31, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 8 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the budgetary comparison information that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 15, 2019, on our consideration of North Berwick Sanitary District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering North Berwick Sanitary District's internal control over financial reporting and compliance.

Buxton, Maine February 15, 2019

REQUIRED SUPPLEMENTARY INFORMATION MANAGEMENT'S DISCUSSION AND ANALYSIS DECEMBER 31, 2018

(UNAUDITED)

The following management's discussion and analysis of North Berwick Sanitary District financial performance provides an overview of the District's financial activities for the fiscal year ended December 31, 2018. Please read it in conjunction with the District's financial statements.

Financial Statement Overview

The North Berwick's Sanitary District's basic financial statements include the following components: 1) proprietary funds financial statements and 2) notes to the financial statements.

Basic Financial Statements

The basic financial statements for the District include the statement of net position, statement of revenues, expenses, and changes in fund net position, and statement of cash flows. These basic financial statements also include the notes to financial statements that explain in more detail certain information in the financial statements and also provide the user with the accounting policies used in the preparation of the financial statements.

The District's financial statements provide a broad view of its operations in a manner that is similar to private businesses. These statements provide both short-term as well as long-term information in regards to the District's financial position. These financial statements are prepared using the accrual basis of accounting. This measurement focus takes into account all revenues and expenses associated with the fiscal year regardless of when cash is received or paid.

Statement of Net Position – this statement presents all of the government's assets, deferred outflows of resources, liabilities and deferred inflows of resources with the difference being reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

Statement of Revenues, Expenses and Changes in Net Position – this statement presents information that shows how the government's net position changed during the period. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows.

Statement of Cash Flows – this statement presents information on the effects changes in assets, deferred outflows of resources, liabilities, deferred inflows of resources and operations have on cash during the course of the fiscal year.

The District's financial statements can be found on pages 9 through 11 of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the District's financial statements. The Notes to Financial Statements can be found following the Statement of Cash Flows on page 11 of this report.

Financial Analysis

Our analysis below focuses on the net position, and changes in net position of the District's business-type activities. The District's total net position decreased by \$87,156 from \$2.17 million to \$2.08 million.

Unrestricted net position - the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements – increased to a balance of \$245,244 at the end of this year.

Net Position - December 31	\$ 2	2,082,905	\$	2,170,061

Revenues and Expenses

Revenues for the District's activities increased by 4.40%, while total expenses decreased by .25%. The biggest reason for the increase in revenues was from charges for service. The biggest decreases in expenses were in insurance, outside contracted labor, automotive expenses, repairs and maintenance, depreciation and nonoperating expenses.

Capital Asset and Long-Term Debt Activity

Capital Assets

As of December 31, 2018, the net book value of capital assets recorded by the District decreased by \$82,262. The decrease was due to current year additions of \$44,245 less current year deletions of \$2,794 and depreciation expense of \$123,713.

Debt

At December 31, 2018, the District had \$133,282 in a bond outstanding versus \$146,936 last year. Other obligations include accrued sick time. Refer to Note 4 of Notes to Financial Statements for more detailed information.

Currently Known Facts, Decisions, or Conditions

Economic Factors and Next Year's Budgets and Rates

The District has steadily maintained a sufficient net position to sustain government operations for a period of approximately two months, while also maintaining significant reserve accounts for future capital and program needs.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District Office Manager at, P.O. Box 173, North Berwick, Maine 03906.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The North Berwick Sanitary District was incorporated under the laws of the State of Maine. The District operates under trustees-superintendent form of government and provides sewer services.

The District's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations).

The District's combined financial statements include all accounts and all operations of the District. We have determined that the District has no component units or component units that are fiduciary in nature as described in GASB Statement No. 14 and amended by GASB Statements No. 39 and No. 61.

Implementation of New Accounting Standards

During the year ended December 31, 2018, the following statements of financial accounting standards issued by the Governmental Accounting Standards Board became effective:

Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other than Pensions." The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency. Management has determined the impact of this Statement is not material to the financial statements.

Statement No. 81, "*Irrevocable Split-Interest Agreements*". The objective of this Statement is to improve accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. Split-interest agreements are a type of giving agreement used by donors to provide resources to two or more beneficiaries, including governments. Split-interest agreements can be created through trusts or other legally enforceable agreements with characteristics that are equivalent to split-interest

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

agreements in which a donor transfers resources to an intermediary to hold and administer for the benefit of a government and at least one other beneficiary. Examples of these types of agreements include charitable lead trusts, charitable remainder trusts, and life-interests in real estate. As such, this Statement requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement. Management has determined the impact of this Statement is not material to the financial statements.

Statement No. 85, "Omnibus 2017." The objective of this Statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]). Management has determined the impact of this Statement is not material to the financial statements.

Statement No. 86, "Certain Debt Extinguishment Issues." The primary objective of this Statement is to improve consistency in accounting and financial reporting for insubstance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources—resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. Management has determined the impact of this Statement is not material to the financial statements.

Measurement Focus - Basic Financial Statements & Fund Financial Statements

1. Proprietary Funds

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. Operating revenues include charges for services, intergovernmental reimbursements and other miscellaneous fees which are a direct result of the proprietary activity. Nonoperating revenues are any revenues which are generated outside of the general proprietary activity, i.e. interest income. The following is a description of the proprietary funds used by the District:

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

a. Enterprise Funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) established fees and charges based on a pricing policy designed to recover similar costs.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

1. Accrual

Proprietary funds are reported in the same way that *all* activities are reported in the government-wide financial statements, using the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

It is the District's policy to value investments at fair value. None of the District's investments are reported at amortized cost. For purposes of the statement of cash flows, all highly liquid investments with a maturity of three months or less when purchased are considered to be cash equivalents. The District Treasurer is authorized by State Statutes to invest all excess funds in the following:

- Obligations of the U.S. Government, its agencies and instrumentalities
- Certificates of deposits and other evidences of deposits at banks, savings and loan associations, and credit unions
- Repurchase agreements
- Money market mutual funds

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The District has no formal investment policy but instead follows the State of Maine Statutes. They are in the process of adopting a more detailed investment policy.

<u>Receivables</u>

Receivables include amounts due for sanitary user charges. All receivables are current and therefore due within one year. Receivables are reported net of an allowance for uncollectible accounts and revenues net of uncollectibles. Allowances are reported when accounts are proven to be uncollectible. Allowances for uncollectible accounts netted with accounts receivable were \$123,191 for the year ended December 31, 2018. The allowance for uncollectible accounts is estimated to be \$0 as of December 31, 2018.

Prepaid Items

Certain insurance and other payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

Capital Assets

Capital assets purchased or acquired with an original cost of \$2,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Infrastructure such as buildings, infrastructure, and machinery and equipment are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the estimated useful lives.

The assets are valued at historical cost when available and estimated historical cost where actual invoices or budgetary data was unavailable. Donated fixed assets are valued at their estimated fair market value on the date received. All retirements have been recorded by eliminating the net carrying values.

Infrastructure assets include buildings, infrastructure, and machinery and equipment. These infrastructure assets are likely to be the largest asset class of the District. The District has retroactively recorded infrastructure.

Estimated useful lives are as follows:

Buildings	20 - 50 years
Infrastructure	50 - 100 years
Machinery and equipment	3 - 50 years
Vehicles	3 - 25 years

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Long-term Obligations

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term debt to be repaid from business-type resources is reported as liabilities in government-wide statements. The long-term debt consists primarily of bonds payable and compensated absences.

Long-term debt for business-type funds is reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of interest reported as expenditures.

Compensated Absences

The District's policies regarding vacation and sick time permit employees to accumulate earned but unused sick leave. The liability for these compensated absences is recorded as long-term debt in the government-wide financial statements. In the fund financial statements, governmental funds report only the compensated absence liability payable from expendable available financial resources, while the proprietary funds report the liability as it is incurred.

<u>Net Position</u>

Net position represents the difference between all other elements in a statement of financial position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for those assets, and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on its use either through enabling legislations adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Unrestricted net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or restricted net position.

Program Revenues

Program revenues include all directly related income items applicable to a particular program (charges to customers or applicants for goods, services, or privileges provided; operating or capital grants and contributions, including special assessments).

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Operating/Nonoperating Proprietary Fund Revenues

Operating revenues consist mainly of direct revenue sources and/or charges for services applicable to that fund's ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Use of Estimates

During the preparation of the District's financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosure of contingent items as of the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results may differ from these estimates.

NOTE 2 - DEPOSITS AND INVESTMENTS

The District's investment policies, which follow state statutes, require that all investments be made considering the safe and sound investment of principal and preservation of capital in the overall portfolio, maintenance of sufficient liquidity to meet day-to-day operations and other cash requirements and maximization of income, within established investment risk guidelines, with consistent cash flows throughout the budgetary cycle. These investment policies apply to all District funds.

Deposits:

Custodial credit risk for deposits is the risk that, in the event of a failure of a depository financial institution, the District will not be able to recover its deposits. The District does not have a policy covering custodial credit risk for deposits. However, the District maintains deposits in qualifying financial institutions that are a member of the FDIC or NCUSIF as defined in Title 30-A, Section 5706 of the Maine Revised Statutes. At December 31, 2018, the District's deposits amounting to \$131,839 were comprised of bank deposits of \$148,132, which were all insured by federal depository insurance and consequently were not exposed to custodial credit risk.

Account Type	E	Bank Balance		
Checking accounts Money market accounts	\$	31,260 116,872		
	\$	148,132		

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2018

NOTE 2 - DEPOSITS AND INVESTMENTS (CONTINUED)

Investments:

Custodial credit risk for investments is that, in the event of failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. Currently, the District does not have a policy for custodial credit risk for investments.

At December 31, 2018, the District's investments of \$105,172 were comprised of certificates of deposit that were fully insured by federal depository insurance and consequently not exposed to custodial credit risk. At December 31, 2018, the District had the following investments and maturities:

Investment Type	Fair Value	N/A	< 1 Year	1 - 5 Years
Certificates of Deposits	\$ 105,172	\$-	<u>\$</u> -	\$ 105,172
	\$ 105,172	\$-	\$-	\$ 105,172

Credit risk – Statutes for the State of Maine authorize the District to invest in obligations of the U.S. Treasury, agencies and instrumentalities, other states and Canada, provided such securities are rated within the three highest grades by an approved rating service of the State of Maine, corporate stocks and bonds within statutory limits, financial institutions, mutual funds and repurchase agreements. The District does not have an investment policy on credit risk. Generally, the District invests excess funds in money market accounts and various certificates of deposit.

Interest rate risk – is the risk that changes in interest rates will adversely affect the fair value of an investment. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from fluctuations in interest rates.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2018

NOTE 3 - CAPITAL ASSETS

The following is a summary of changes in capital assets for the year ended December 31, 2018:

	Balance, 1/1/18	Additions	Disposals	Balance, 12/31/18	
<u>Non-depreciated assets:</u> Land Total non-depreciated assets	<u>\$204,414</u> 204,414	<u>\$ -</u> 	<u>\$ -</u> 	<u>\$ 204,414</u> 204,414

Net capital assets	\$ 1,936,333	\$ (79,468)	\$ (2,794)	\$ 1,854,071	

NOTE 4 - LONG-TERM DEBT

The following is a summary of changes in the long-term debt for the year ended December 31, 2018:

	Balance,				Balance,	Current
	1/1/18	Add	ditions	Deletions	12/31/18	Portion
Bond payable Accrued compensated	\$ 146,936	\$	-	\$ (13,654)	\$ 133,282	\$ 13,875
absences	2,836		399	-	3,235	809
	\$ 187,653	\$	399	\$ (13,654)	\$ 136,517	\$ 14,684

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2018

NOTE 4 - LONG-TERM DEBT (CONTINUED)

The following is a summary of the outstanding bond payable:

\$362,100, 2007 Sewer bond payable to Maine Municipal Bond Bank. Annual principal payments varying from \$15,475 to \$21,001. Interest is charged at 1.620% per annum. The final payment is due on April 1, 2027.

\$ 133,282

The following is a summary of outstanding bond principal and interest requirements for the following fiscal years ending December 31:

	Principal Interes		nterest	Total Debt Service		
2019	\$	13,875	\$	2,843	\$	16,718
2020		14,100		2,616		16,716
2021		14,328		2,385		16,713
2022		14,561		2,152		16,713
2023		14,796		1,914		16,710
2024-2028		61,622		5,442		67,064
	\$	133,282	\$	17,352	\$	150,634

No interest costs were capitalized during the period. The amount of interest costs incurred and charged to expense for the year ending December 31, 2018 was \$2,453

All bonds payable are direct obligations of the District, for which its full faith and credit are pledged. The District is not obligated for any special assessment debt. All debt is payable from sewer fees assessed on all assessable property within the District.

NOTE 5 - RESTRICTED NET POSITION

As of December 31, 2018, the District's restricted net position is made up of the following:

Equipment Replacement	\$ 1,118
Sludge	78,377
Paving	1,753
Truck Replacement	12,199
Capacity Expansion	15,570
Sewer Agreement	7,855
	\$ 116,872

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2018

NOTE 6 - DEFINED CONTRIBUTION PENSION PLAN

Plan Description

The District adopted the Simplified Employee Pension plan (SEP/IRA) on January 3, 1990, a defined contribution plan created in accordance with Internal Revenue Code Section 408. This is a non-contributory plan. The authority to establish and amend plan provisions rests with the District's Board of Trustees. All amounts deferred under the plan are available to the employee at any time, subject to the general limitations imposed on traditional IRAs. A withdrawal is taxable in the year received.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are (until paid or made available to the employee or other beneficiary) to be held in a trust for the exclusive benefit of the participants and their beneficiaries.

It is the opinion of the District's management that the District has no liability for losses under the plan but does have the duty of due care that would be required of an ordinary prudent investor.

Funding Policy

Under the defined contribution plan, eligible employees must be at least 21 years old and have worked for the District, on a full-time basis, for at least three years of the immediately preceding five years. Plan members may not contribute to the plan. The employer's annual contribution is calculated as a percentage of each eligible employee's approximate gross W-2 form earnings for the District's fiscal year. The employer's contribution is tax deferred for federal and state taxes until the withdrawal date. The District expended approximately \$14,172, \$13,535 and \$13,406 for the years ended December 31, 2018, 2017 and 2016, respectively.

NOTE 7 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance.

Based on the coverage provided by the insurance purchased, the District is not aware of any material actual or potential claim liabilities which should be recorded as of December 31, 2018. There were no significant reductions in insurance coverage from that of the prior year and amounts of settlements have not exceeded insurance coverage in the past three years.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2018

NOTE 8 - RELATED PARTY TRANSACTIONS

A member of the District's Board of Trustees is related to the District's Office Manager. The Trustee recuses himself from voting on any matters that concern the related party. In addition, this Trustee is CEO of a company, Benchmark Communications, that provides telecommunication services to the District. During the fiscal year ended December 31, 2018, payments to Benchmark Communications for telecommunication services totaled \$432. Another Trustee is the owner of Owen Thyng and Sons Masonry and the company was paid \$2,960 in FY 2018.

NOTE 9 - COMPARATIVE DATA/RECLASSIFICATIONS

Comparative total data for the prior year have been presented in selected sections of the accompanying financial statements in order to provide an understanding of the changes in the District's financial position and operations. Also, certain amounts presented in the prior year's data have been reclassified to be consistent with the current year's presentation.

Proven Expertise and Integrity

INDEPENDENT AUDITORS REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Trustees North Berwick Sanitary District North Berwick, Maine

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of North Berwick Sanitary District as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the North Berwick Sanitary District's basic financial statements, and have issued our report thereon dated February 15, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered North Berwick Sanitary District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of North Berwick Sanitary District's internal control. Accordingly, we do not express an opinion on the effectiveness of North Berwick Sanitary District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether North Berwick Sanitary District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

WARRANT FOR TOWN MEETING

NORTH BERWICK, MAINE

April 6, 2019

COUNTY OF YORK -- STATE OF MAINE

To, Dwayne G. Morin, Resident of North Berwick, Maine in the County of York and State of Maine.

GREETINGS:

In the name of the State of Maine you are hereby required to notify the inhabitants of the Town of North Berwick, qualified by law to vote in town affairs, to meet at the Noble High School in said Town of North Berwick on Saturday April 6, 2019 at 8:00 a.m. to vote on the following articles:

ARTICLE 1: To elect a moderator to preside at said meeting.

<u>ARTICLE 2:</u> To elect the necessary Town Officers for the ensuing year and to determine by secret ballot certain amendments to the Zoning Ordinance, Street Design and Construction Ordinance, and approval of the Medical Marijuana Licensing Ordinance and Food Sovereignty Ordinance.

<u>ARTICLE 3:</u> To see if the Town will vote that all balances, both debits and credits in all departments of Town Government be lapsed and that the following account balances be carried forward:

Winter Highway	Sidewalks	Parks and Recreation			
Patch	Animal Control	HRA Funds			
Town Computer Account	Mill Field Festival	Capital Improvement			
Funds					

BUDGET COMMITTEE RECOMMENDS: OUGHT TO PASS, VOTE 9-0 IN FAVOR.

ARTICLE 4: To see if the Town will vote to apply the following estimated amounts from Excise Taxes, Miscellaneous Fee Revenues, Revenue Sharing, BETE Reimbursement and Homestead Exemption Reimbursement to use toward the 2019/2020 Budget Appropriations, thereby decreasing the amount to be raised by taxation.

Excise Taxes	\$850,000.00
Miscellaneous Fee Revenues	\$336,000.00
State Revenue Sharing	\$137,000.00
State Road Bond	\$70,500.00
Homestead Exemption Reimbursement	\$167,500.00
BETE Reimbursement	<u>\$1,700,000.00</u>
Total	\$3,261,000.00

BUDGET COMMITTEE RECOMMENDS: OUGHT TO PASS, VOTE 9-0 IN FAVOR.

<u>ARTICLE 5:</u> To see if the Town will authorize the Collector to accept taxes in anticipation of tax commitment.

BUDGET COMMITTEE RECOMMENDS: OUGHT TO PASS, VOTE 9-0 IN FAVOR.

ARTICLE 6: To see if the Town will vote to set a date for payment of taxes and determine a rate of interest on overdue taxes.

Due Date: October 4, 2019Delinquent: October 5, 2019Balance Due: May 1, 2020Delinquent: May 2, 2020Interest: 9.00%9.00%

BUDGET COMMITTEE RECOMMENDS: OUGHT TO PASS, VOTE 9-0 IN FAVOR.

<u>ARTICLE 7:</u> To see what sum the Town will vote to raise and/or appropriate for the operation of the <u>North Berwick Fire Department</u>.

	<u>2018/2019</u>	<u>2019/2020</u>	Inc/(Dec)
